I. GET STARTED.....	12
1. Applying for the service.....	12
How shall I request DirektNet if I have a Raiffeisen bank account?	12
How shall I request DirektNet if I have NO Raiffeisen bank account?	12
2. Activation and security	13
How shall I activate DirektNet upon my first login?	13
Activation steps:.....	13
What password to choose?.....	14
How frequently and where shall I change my password?	14
What shall I do if I have forgotten my password?	14
3. Login.....	15
How can I log in to the internet banking service?	15
What is Mobile Token?	15
How can you log in to DirektNet with Mobile Token?	15
Login with Hardware Token	16
Login with Password	16
What shall I do if I have entered the wrong password several times, and cannot log in to the system?.....	16
Why request SMS notification on logins to DirektNet?	16
4. Signature of orders; signature devices	17
How can I sign credit transfers initiated in DirektNet with the Mobile Token?.....	17
When should I use the SMS signature?	18
How can I set the telephone number belonging to the SMS signature?	20
Can I sign several orders with one SMS?.....	20
When should I use the Digital Channel login Password upon signature?	20
Can I use Hardware Token instead of SMS signature?.....	21
What is "dual signature"?	21
Can I as a corporate customer use Mobile Token?	22
5. Services.....	22
What services can I access as a retail customer?.....	22

What services can I access as a corporate customer?	23
6. Customer Profile selector	23
What is the Customer Profile selector?	23
Where can I find customer profiles?	24
Content of the customer profile selector	24
How can I know which access of mine I am logged in with?	25
7. Account aliases.....	25
What is an account alias?	25
Where can I manage account aliases?	26
How can I register an account alias?	26
How can I manage account aliases?	29
How can I cancel account aliases?.....	30
II. ACCOUNT INFORMATION	33
1. Accounts overview	33
The content of account information.....	33
What does "account number" mean in the case of a HUF account?	33
What does "account number" mean in the case of a foreign currency account?	33
What can I see in "account history"?	34
How can I change the current view of my account history?	34
2. Transaction limits	36
What does "transaction limits" mean?	36
How can I change the current transaction limits?	37
3. Checking past transactions	37
How can I print the details of a transaction item?.....	37
Where can I view transactions older than 1 year?	38
How can I know if my order has been executed or not?.....	38
Can I get notices on transactions affecting my card and account?	38
How long does it take for a card purchase to appear in my account?.....	38
How can I view my overdue debts?.....	38
3. Saved transactions	40

4. Transaction limits	139

SAFETY WARNINGS

- Always open a new browser for internet based banking services. Enter your internet banking ID and password only on the login page, accessible by you from **www.raiffeisen.hu** website entered in the address bar of your browser. Do not use any link to navigate to the browser because if you are not in the right place, you might get phishing attacked by adding your identification and password.
- Do not use an open Wi-Fi connection while using electronic banking channels (for example restaurant, café, hotel hotspot).
- NEVER use your Raiffeisen internetbank when you get the link through SMS, email or from a social media side, not even if you got the link from a reliable place at first sight.
- Check the site's authenticity and encoding. You will see a padlock icon on the browser's bottom line/ in the top heading.
The authenticity of the webpage can easily be checked by the certificate.

- Take care of and never tell anyone your SMS code that you get from the bank to activate your internet bank, your password and PIN code what you specified after you activated the service. Do not make any note about your identification data (to your

computer or to your mobile device) that by falling into unauthorized hands allows access to banking services in your name. When your internet browser asks for permission to keep your password, do not accept it.

- Our bank does not use voice identification, so please never give your personal bank identification data over the phone if you are asked for such a reason. Our employees working at the call center can only ask you for your internet banking ID, but not for your password or bank card details. In the event of a suspicious request, please end the phone call and then call the Bank's well-known call center phone number published on our website to verify the authenticity of the call.
- Do not download unknown origin or unknown application (for example Anydesk, Teamviewer) to your phone or your computer and do not allow remote access to your device for unauthorized person. Your bank will not ask you for this in connection with a virus protection or any other legal issue.
- DO NOT approve any operation in your mobile banking application that you did not initiate. (e.g. unknown card purchases, transfers or online banking logins)
- Always read carefully what you get in SMS from your bank.
- Always be careful when shopping on online marketplaces. Never open the link if an advertiser or a user interested in your product sends you it to arrange the delivery or to accept payment or approve a purchase.

The risks of granting access to the electronic channel to the authorised representative of the bank account

Our customers may hold their own bank account with our Bank as individuals and may also be granted the right to dispose over the bank account of another individual/corporate Customer as a representative registered with the Bank.

The person registered with the Bank as an authorised representative can view and manage all bank accounts, whether their own or those of another account-holding customer (principal), using their unique identifier, after logging in to their own Internet Bank.

If the unique code or Internet banking identifier and password, which is also used by the representative in the banking systems, is obtained (lost, stolen, disclosed to an unauthorised person):

- 1) deposit held in the account holder's bank account may be at risk; and
- 2) in the case of a representative registered for more than one of the Bank's customers, the deposit held in the accounts of all the account holders concerned may be at risk.

For the above reasons, it is very important that you use your codes, unique identifiers and passwords to access the Bank's systems carefully and diligently, and never, under any

circumstances, disclose them to anyone else. Please make sure to inform your representatives of this!

Please only grant a power of attorney, i.e. give someone else the right to dispose over your bank account, bearing in mind the particular risks described above.

You can find more detailed information on the Online Fraud Information page.

If you suspect misuse (fraud) or if your personal details have been compromised for any other reason, please contact the Bank immediately at +36 1 486 5380 around the clock.

For more information, please read Direktnet, myRaiffeisen portal under manual **Chapter VIII**.

A) RAIFFEISEN DIREKTNET

The Raiffeisen DirektNet internet banking service has been developed in order to enable our customers to manage their banking transactions quickly and efficiently, any time and from anywhere.

This user guide has been prepared to facilitate the use of the system.

If after reading this manual you should have further questions concerning the use of DirektNet, please call our telephone customer service Raiffeisen Direkt at phone number

06-80-488-588

free of charge within Hungary.

Our DirektNet internet banking service is optimised for the following browsers:

- **Google Chrome 81.0+**
- **Mozilla Firefox 85.0+**
- **Apple Safari 13+**
- **Microsoft Edge 87.0+**

Please enable Javascript in the browser.

To use the internet banking functions, internet connection is needed.

I. GET STARTED

1. Applying for the service

How shall I request DirektNet if I have a Raiffeisen bank account?

Please complete the application form available among Forms, and send it to the following address: Raiffeisen Bank Zrt. Budapest Pf. 1700.

If you prefer to do the application in-person, please visit the Raiffeisen branch that is closest to you.

In order to avoid waiting, please make an appointment in advance: [Click here to make an appointment.](#)

Documents required for the application: ID card, address card.

The Bank sets the service in the system, of which notice is sent to you in SMS.

How shall I request DirektNet if I have NO Raiffeisen bank account?

Please visit the Raiffeisen branch that is closest to you.

In order to avoid waiting, please make an appointment in advance: [Click here to make an appointment.](#)

Documents required for the opening of the account: ID card, address card.

Choose from our account packages the one that is most convenient for you.

Simultaneously with the account opening, apply for DirektNet internet banking access.

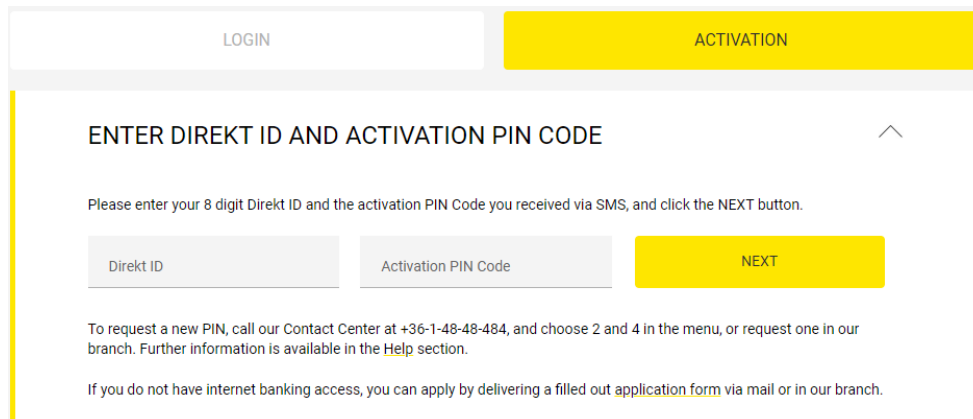

For the activation of DirektNet, a one-time activation code is sent to you in SMS, to the mobile phone number you have provided.

2. Activation and security

How shall I activate DirektNet upon my first login?

Before the first use, you must activate your DirektNet access. If you have concluded a DirektNet agreement with the Bank, you can do the activation with your 8-digit Direkt ID received upon the conclusion of your agreement in our website www.raiffeisen.hu/direktnet, using the **activation** tab.

You can use the service with the activation code received in SMS. The activation code is sent to the mobile phone number that you have identified and is included in the Bank's registry. The activation code is a 4-digit one-time code consisting of numbers only (Digital Channel activation code) that enables you to activate our Digital Channel service.

You can use your D-PIN code received for the activation **ONLY** once, after which—following your successful identification—you can request a Digital Channel activation code through Raiffeisen Direkt, or by visiting any Raiffeisen branch.

Activation steps:

Open the website www.raiffeisen.hu/direktnet, or in the website www.raiffeisen.hu click on the Internetbank login, then on the DirektNet button.

Step 1: In the DirektNet start page, click on the activation tab, and enter your Digital Channel ID received from the Bank and your Digital Channel activation code received in SMS, then click on the Next button.

Step 2: Following the instructions enter the login password you have chosen for use of the DirektNet system going forward, then click on the Next button.

After successful activation, the program offers you to log in to the DirektNet system. To **log in**, you have to use your Direkt ID received from the Bank and the password that you have chosen in **step 2**.

What password to choose?

Please choose a password that **contains minimum 8 characters**, including **at least one uppercase and one lowercase letter and one numeral** (e.g. Zb41@kxx), as well as **special characters if possible** (pl. &; @; *; \$; _; #; ; +; !; " %; ' ; (;) ; > ; < ; { ; } ; = ; ? ; [;] ; ~).

The password must not contain accented letters, and must not be identical with your latest DirektNet password.

The password can be up to 32 characters long.

How frequently and where shall I change my password?

You must change your password chosen upon the activation of the service **every 365 days on a mandatory basis**, and the system will automatically prompt you to do so. Of course you can change your password more frequently than that, as needed. You can do so in the menu **Administration/Settings/Change password**. After you have entered your old password, type in your new password, then for security reasons type in your new password once again. **Once you have changed your password, you should exit and log in again.**

Password Settings

 You can change your password here. Please type in your old password, then the desired new password two times.
You can change your password here. Please enter your current password, then the new one (retype it for verification) and click the button.
Your password must contain at least 6 characters (with special), combination of upper and lower case letters (no accentuated) and at least two numbers (pl. ?Zb41xk?). We suggest to use special characters as well (e.g. &, @, *). The previously used password can not be as new one.

Old password: *

New password: *

Re-enter new password: *

[← Cancel](#) [▶ Save](#)

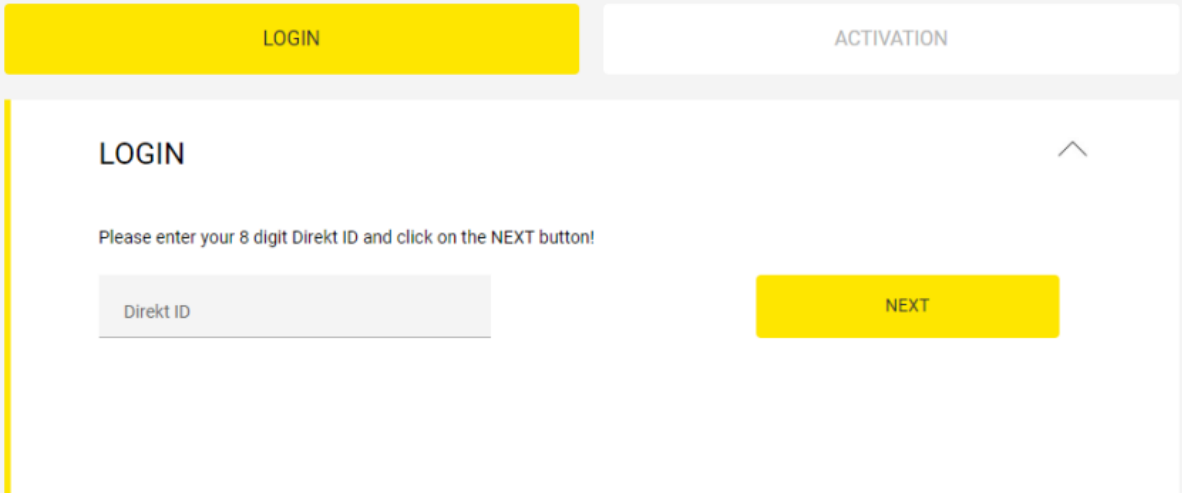

What shall I do if I have forgotten my password?

You must request a one-time DirektNet activation PIN code. You can request a new activation PIN by dialling phone number **06-80-488-588**, and entering menu points 2-4, after successful identification, or at any branch of the Bank. If you have forgotten your Direkt ID as well, please **visit any branch of ours**, where you will be identified based on your personal documents, and get a new Identifier from our staff.

3. Login

How can I log in to the internet banking service?

Enter your Direkt ID in the site www.raiffeisen.hu/direktnet.

The screenshot shows a web interface for logging in. At the top, there are two tabs: 'LOGIN' (highlighted in yellow) and 'ACTIVATION'. Below the tabs, the page title is 'LOGIN'. A message reads: 'Please enter your 8 digit Direkt ID and click on the NEXT button!'. There is a text input field labeled 'Direkt ID' and a yellow button labeled 'NEXT'.

Depending on what kind of signature devices you have, the system offers the following options for login.

- Login with Mobile Token
- Login with Hardware Token
- Login with Password + SMS

What is Mobile Token?

Mobile Token is a high-security authentication tool incorporated in the myRaiffeisen mobile application. Using it you can log in to the DirektNet internet banking application and the Mobile App simply and quickly (with a PIN code, or touch ID, or—if you have an iOS device—face ID), as well as approve your orders and transactions.

How can you log in to DirektNet with Mobile Token?

You can read in detail about approving DirektNet login in the myRaiffeisen mobile application in Chapter [Authorising login to DirektNet internet banking in the myRaiffeisen app](#) of the [myRaiffeisen mobile application user guide](#) (www.raiffeisen.hu/myrauserguide).

Login with Hardware Token

If currently you use Hardware Token to sign transactions, since April 2019 you may as well use this device to authenticate the login process.

Login with Password

If you have not activated the Mobile Token function, and do not have a Hardware Token either, you can log in by entering your Direkt ID, your Password and a one-time login code sent in SMS to your device.

What shall I do if I have entered the wrong password several times, and cannot log in to the system?

If you enter the wrong password several times, in the interest of your security **DirektNet cannot be used for 24 hours**. If you still want to log in to the system, you can re-activate the service using the DirektNet **activation PIN code**, and **choose a new password**.

Please note that the Bank never sends requests in e-mail for you to provide or change your password, activate a banned user account, or any other e-mail messages including links to sites requesting you to enter your security passwords or codes (pl. Direkt PIN, activation code, etc.). If you receive a message of this kind, do not click on the link included in the message, and do not enter your data, but notify the Bank immediately in any available channel and forward the e-mail in question to the Bank. In the interest of the security of your data and finances, please proceed with caution.

Why request SMS notification on logins to DirektNet?

With the DirektNet login SMS notification service **you may get prompt notice on all successful and unsuccessful login attempts** carried out with your Direkt ID. You can apply for, modify or cancel the service only and exclusively through DirektNet, **in the menu Administration/Account holder details**. The fees payable for the service are available in the Bank's List of Terms & Conditions.

You will get automatic message on the following Raiffeisen DirektNet transactions:

- Successful logins
- Unsuccessful login attempts

Third unsuccessful login attempt—suspension of the service for the given day, and cancellation of the service.

4. Signature of orders; signature devices

You can use several authentication methods to sign orders:

- Mobile Token
- Password used for login + one-time SMS password
- Hardware Token (if you have such a device)

After you have downloaded and registered for the Mobile App, Mobile Token will be your default authentication device, therefore you can authenticate orders entered via DirektNet primarily with this method.

How can I sign credit transfers initiated in DirektNet with the Mobile Token?

After you have entered the details of the order, you can either enter further orders, or sign the given item:

We are registering your order.

Please choose: do you want to register more orders and then sign all of them in one go at the end, or do you want to sign the orders you have entered so far?

› Register next order

› Sign order

Signing tool: Mobile token

Please verify the transaction(s) on Raiffeisen Mobile Application. We have sent a notification of this transaction to your mobile device. Please open the notification and approve the order.

Authentication identifier 06433

Other authentication methods **SMS password**

← Cancel

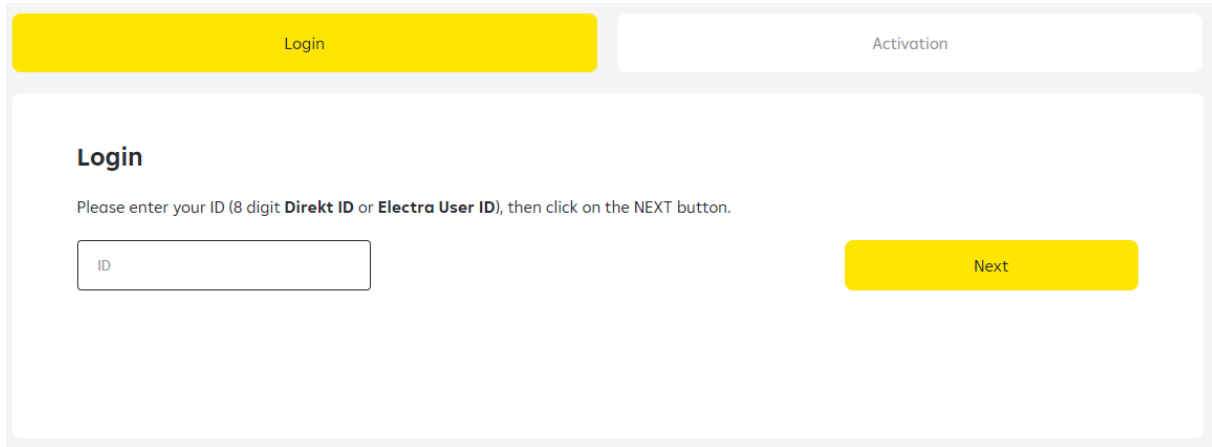

When should I use the SMS signature?

For login to the DirektNet internet banking service, as well as to approve electronic orders—e.g. credit transfers—you may as well choose to use one-time SMS passwords. In such case you have to enter your Password used to log in to DirektNet as well as the one-time SMS code sent to your telephone number registered in the Bank's system.

The received SMS code is valid for the given login or to validate the given order only.

Login to the DirektNet internet banking service with SMS code:

As a first step, enter your Direkt ID, then click on the **Next** button.

Login Activation

Approval of orders and credit transfers with SMS code:

For the approval of orders and credit transfers, as a first step you have to enter your **Digital Channel password**, then click on the **Next** button.

After this, if you click on the [Send SMS code](#) button, we will send you a one-time code with which you can sign your order.

In the screen you can see a field serving to enter SMS passwords, this is where you are required to type in the one-time SMS code. The received SMS code is valid for the given order(s) only. It is also possible to [sign several orders jointly](#).

How can I set the telephone number belonging to the SMS signature?

The SMS containing the signature password will be sent to your mobile phone number that you have previously identified and is included in the Bank's registry. You can check the phone number recorded in our system in the menu [Administration/Settings/Telephone number for SMS signature](#).

If there are several mobile phone numbers recorded in our system, you can select the number that is most appropriate for you. [For the first credit transfer, the list of mobile telephone numbers included in our registry will be offered to you](#). Select the appropriate mobile phone number from the dropdown menu, and your signature password will be sent to your phone promptly.

Can I sign several orders with one SMS?

Yes, [you can sign several credit transfers with one single SMS signature](#) so that you do not have to request an SMS password for each and every order.

When you finalise each credit transfer, time deposit, etc. order, the system will ask whether you want to sign the order (and send it to the Bank), or [want to enter further orders](#). If you choose this latter option, the [order will get among "Saved transactions" with the status "waiting for signature"](#). After you have entered all orders in the system this way, by marking the saved transactions in the [Account information/Saved transactions](#) menu you can sign these with [one single SMS password](#).

When should I use the Digital Channel login Password upon signature?

In the case of order types where no cash flow outside the Bank takes place, you may as well authenticate the order with the Password used for login, e.g. in the case of a time deposit.

If you have more than one Direkt IDs (for example as an account holder, or an authorised representative), when signing the order you should always enter your

password used for the given access, to which your attention will be called in a message displayed in the screen.

With the Mobile Token you can conveniently and simply authenticate your orders linked to any access of yours.

HUF transfer

1 Saving order **2 Signature** 3 Confirmation

 **Please check the order data!**
If you wish to make any changes to the order, click on Modify. If everything is OK, confirm the order at the bottom of the page.

For transaction signature, please use the authentication method/device that belongs to Sza' (31697502).

Transaction code: 17369101

Signing tool: SMS password

For a stronger customer authentication please type your login password first.

Login password:  

Other authentication methods: **Mobile token**

Can I use Hardware Token instead of SMS signature?

Yes, if you have a **Hardware Token** you can sign your orders using this device, but you may authenticate your transactions with SMS password as well.

Hardware Token is a **code generating device** that any customer of ours may **request quite simply at any branch**. **Hardware Token** creates a **one-time password** on the basis of the data of the orders that is valid for the given transaction(s) only. Protected by a PIN code, this device can be used to give orders of higher amount than in the case of transfers launched with the SMS password.

What is "dual signature"?

As a **corporate customer** you can ensure that the persons authorised to act on behalf of the company may **finalise the approval of transactions with a dual signature only**. Authorised representative No. 1 launches the transaction, and the system puts it among transactions "waiting for signature" so that the transfer can be approved. Authorised representative No. 1 approves the transaction with the SMS password sent by the system, but

the requested order will only start if **authorised representative No. 2 signs and sends it to the Bank**. Authorised representative No. 2 finalises the requested order with the signature password received in SMS, thus it will get among Account information/Saved transactions.

Can I as a corporate customer use Mobile Token?

Yes, if you use Raiffeisen Bank's new Mobile Application.

Only corporate

5. Services

What services can I access as a retail customer?

Using the DirektNet system you can access the following services:

Account information services:

- Detailed balance information of HUF and foreign currency bank accounts
- Customisable account history showing items that are being processed, orders given with value dates, and booked items
- Electronic account statements
- Active and matured time deposits

Transaction services:

- Start single credit transfers in HUF and in foreign currencies within Hungary and abroad
- Special foreign exchange conversion

- SEPA transfer
- Cheque payment
- Give standing credit transfer orders
- Direct debit functions
- Credit card top-up

To access account information and transaction services, after login please select from the upper horizontal menu the **Account information** or the **Transfer, conversion** menu points, respectively.

What services can I access as a corporate customer?

ACCOUNT INFORMATION | TRANSFER, CONVERSION

Using the DirektNet system you can access the following services:

Account information services:

- Detailed balance information of HUF and foreign currency bank accounts
- Customisable account history showing items that are being processed, orders given with value dates, and booked items
- Active and matured time deposits

Transaction services:

- Start HUF and foreign currency one-off credit transfers within Hungary and abroad
- Special foreign exchange conversion (for customers holding independent signature right only)
- Give, cancel or change standing credit transfer orders
- SEPA transfer
- Direct debits
- Time deposits
- **VPOP transfer**

To access account information and transaction services, after login please select from the upper horizontal menu the **Account information** or the **Transfer, conversion** menu points, respectively.

6. Customer Profile selector

What is the Customer Profile selector?

It is a new internet banking function that enables you – in case you have more than two rights of access either as an account holder or as an authorised representative in respect of several payment accounts (Retail, Corporate, Private Banking, etc.) – to log in to DirektNet with any activated Direkt ID of yours, and access all active accounts you are authorised to access.

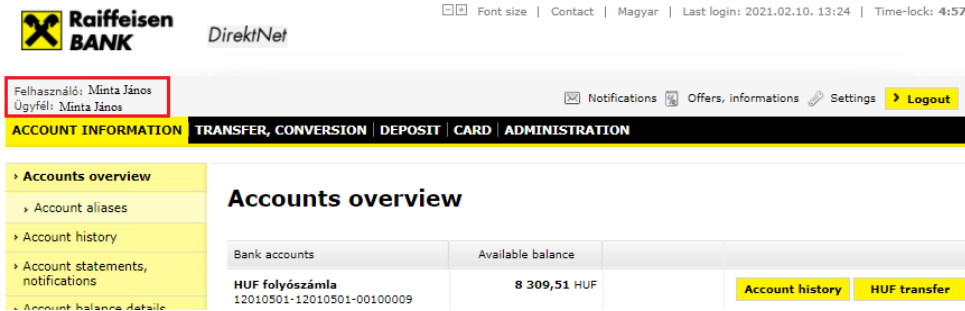

If you have more than one Direkt IDs (for example as an account holder, or an authorised representative), when signing the order you should always enter your password used for the given access, to which your attention will be called in a red message displayed in the screen.

With the Mobile Token you can conveniently and simply authenticate your orders linked to each access of yours.

Where can I find customer profiles?

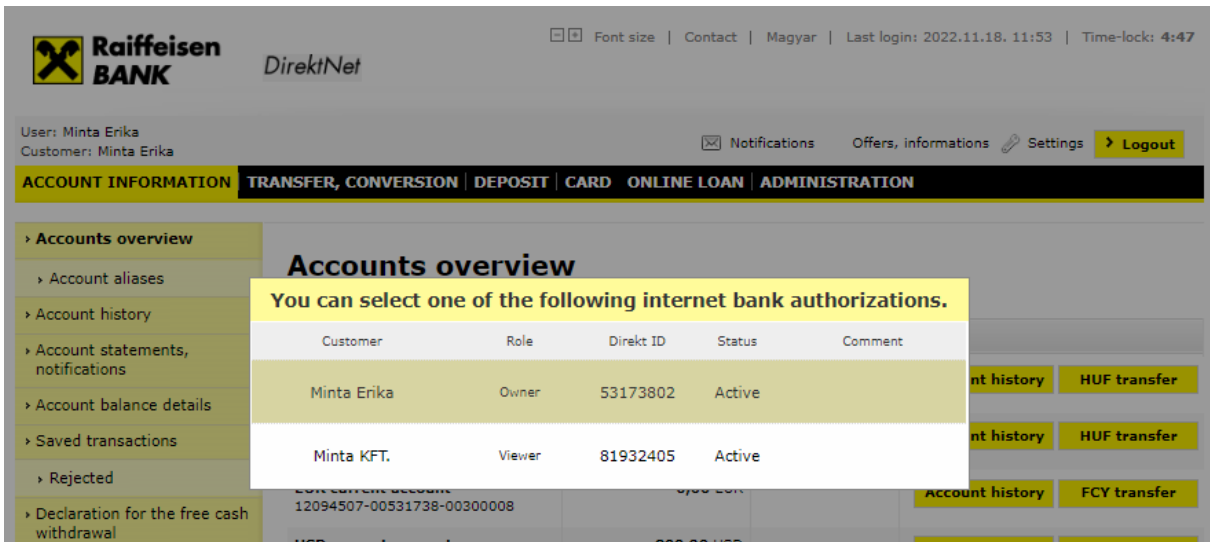

After login to the DirektNet internet banking platform, you can open the relevant customer profiles by clicking on the Customer's name in the upper left corner of the page (above the Account information menu option). Then you can choose from your different accesses in the window that appears in the middle of the screen.

The screenshot shows the Raiffeisen Bank DirektNet interface. At the top left, the Raiffeisen Bank logo and 'DirektNet' are visible. In the top right, there are links for 'Font size', 'Contact', 'Magyar', 'Last login: 2021.02.10. 13:24', and 'Time-lock: 4:57'. Below the header, the user's name 'Felhasználó: Minta János' and 'Ugyfél: Minta János' are displayed, with a red box highlighting the user name. To the right of the user name are icons for 'Notifications', 'Offers, informations', and 'Settings', along with a 'Logout' button. A navigation bar below the header contains 'ACCOUNT INFORMATION', 'TRANSFER, CONVERSION', 'DEPOSIT', 'CARD', and 'ADMINISTRATION'. The 'ACCOUNT INFORMATION' section is expanded, showing a sidebar with options like 'Accounts overview', 'Account aliases', 'Account history', 'Account statements, notifications', and 'Account balance details'. The main content area is titled 'Accounts overview' and contains a table with columns for 'Bank accounts' and 'Available balance'. The table lists a 'HUF folyószámla' with account number '12010501-12010501-00100009' and an available balance of '8 309,51 HUF'. There are buttons for 'Account history' and 'HUF transfer' next to the account information.

Content of the customer profile selector

- **User:** The User is you, the person who has the right to dispose of the Customer's accounts. If you click on the User name in the upper left corner, the customer data screen is loaded, where you can see the Customer's data.
- **Customer:** The Customer is the person on whose behalf you can take action, and post orders. By clicking on the Customer's name, you can open the Customer Profile selector window, if you have several accesses. If you have only one right of access, the name of the Customer is inactive, and you cannot click on it.
- **Role:** This column shows what kind of right you have over the account.
- **Direkt ID:** The Direkt ID belonging to the given access.
- **Status:** It shows the status of the given access.
- **Note:** This column may contain information related to the given access.

The screenshot shows the Raiffeisen DirektNet interface. At the top, there is a navigation bar with the Raiffeisen BANK logo, the text 'DirektNet', and utility links like 'Font size', 'Contact', 'Magyar', 'Last login: 2022.11.18. 11:53', and 'Time-lock: 4:47'. Below this, the user's name 'Minta Erika' and customer name 'Customer: Minta Erika' are displayed, along with 'Notifications', 'Offers, informations', 'Settings', and a 'Logout' button. A main navigation bar contains 'ACCOUNT INFORMATION', 'TRANSFER, CONVERSION', 'DEPOSIT', 'CARD', 'ONLINE LOAN', and 'ADMINISTRATION'. The 'Accounts overview' section is active, showing a list of accounts. A yellow pop-up box is overlaid on the table, containing the text: 'You can select one of the following internet bank authorizations.' Below this text is a table with the following data:

Customer	Role	Direkt ID	Status	Comment
Minta Erika	Owner	53173802	Active	
Minta KFT.	Viewer	81932405	Active	

How can I know which access of mine I am logged in with?

The name beside "Customer" shows currently which access you can administer the businesses of.

7. Account aliases

What is an account alias?

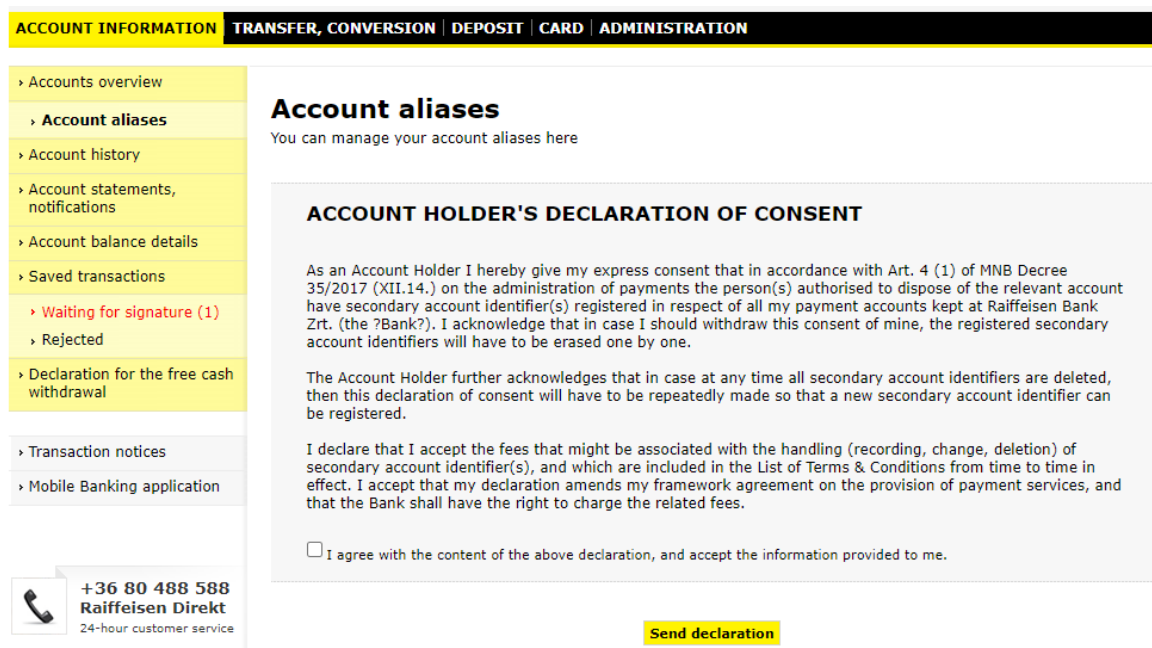

In the scope of the Instant Payment System, you can transfer money up to HUF 20 million even if you do not know the account number of the beneficiary by identifying a phone number, e-mail address or tax number (tax identification number) when sending the order, provided that the beneficiary has attached any of these as an account alias to his/her account. The account holder and/or a person authorised to dispose of the account or an authorised representative may register their e-mail address, mobile phone number, tax identification number or tax number (in the case of a corporate customer). The period of validity of a telephone number or e-mail address as an account alias is one year. Tax numbers and tax identification numbers do not need to be periodically reconciled. Of the expiry of an account alias, the Bank notifies the Customer electronically.

If you terminate or change your mobile phone number or e-mail address, and you have used any of these as an account alias, remember to cancel them!

Where can I manage account aliases?

Account aliases are available in the DirektNet internet banking platform in the menu Account information/Account aliases.

ACCOUNT INFORMATION | **TRANSFER, CONVERSION** | **DEPOSIT** | **CARD** | **ADMINISTRATION**

- > Accounts overview
- > **Account aliases**
- > Account history
- > Account statements, notifications
- > Account balance details
- > Saved transactions
- > Waiting for signature (1)
- > Rejected
- > Declaration for the free cash withdrawal
- > Transaction notices
- > Mobile Banking application

ACCOUNT HOLDER'S DECLARATION OF CONSENT

As an Account Holder I hereby give my express consent that in accordance with Art. 4 (1) of MNB Decree 35/2017 (XII.14.) on the administration of payments the person(s) authorised to dispose of the relevant account have secondary account identifier(s) registered in respect of all my payment accounts kept at Raiffeisen Bank Zrt. (the "Bank?"). I acknowledge that in case I should withdraw this consent of mine, the registered secondary account identifiers will have to be erased one by one.

The Account Holder further acknowledges that in case at any time all secondary account identifiers are deleted, then this declaration of consent will have to be repeatedly made so that a new secondary account identifier can be registered.

I declare that I accept the fees that might be associated with the handling (recording, change, deletion) of secondary account identifier(s), and which are included in the List of Terms & Conditions from time to time in effect. I accept that my declaration amends my framework agreement on the provision of payment services, and that the Bank shall have the right to charge the related fees.

I agree with the content of the above declaration, and accept the information provided to me.

Send declaration

24-hour customer service

The consent of the account holder is required to manage account aliases. In the absence of the account holder's declaration, the person authorised to dispose of the account or authorised representative will not be able to use this menu option.

How can I register an account alias?

You can register account aliases in the Account information/Account aliases menu of the DirektNet internet banking system, by clicking on the Account alias registration button.

Account aliases

You can manage your account aliases here

> Account alias registration

Registered	Waiting for validation (0)	Waiting for signature (0)	Rejected	Deleted
-------------------	----------------------------	---------------------------	----------	---------

You do not have registered or subtitled account aliases.

You may enter account aliases in the registration page.

Account alias registration

* Required fields

Account : *

Account Alias type: *

Deletion of previous link of the alias: * Yes No ?

I hereby give my consent that in accordance with Art. 4 (5) of MNB Decree 35/2017 (XII.14.) on the handling of payments Raiffeisen Bank Zrt. (the "Bank") transmit my name, the IBAN of my payment account, and the secondary account identifier(s) attached to it to Giro Zrt. (registered office: 1054 Budapest, Vadász u. 31., company registration number: 01-10-041159), and Giro Zrt. process such data of mine, cooperate in the provision of the payment service and in the scope of this transmit my data to the cooperating financial institutions.

Cancellation of my consent will not affect the lawfulness of any earlier data processing executed until then. If a secondary identifier is deleted, starting from the deletion a secondary identifier used earlier cannot be used any longer to identify the payment account.

I am aware of the information provided below:
You have the right to request information about the processing of your personal data at any time, as well as request access to your personal data, request the rectification, deletion, restriction or portability of your data, and you also have the right to protest against the processing of your personal data. For legal remedy you can refer to the data protection officers of the parties participating in the data processing, to a court of justice, or to the Hungarian [National Authority for Data Protection and Freedom of Information](#).

Detailed information about the data processing is available in the respective privacy policies of the [Bank](#), Giro Zrt. and the cooperating financial institutions. You can ask your questions with a request sent via any of the Bank's communication channels.

I agree with the content of the above declaration, and accept the information provided to me.

< Cancel

> Register

1. In the scope of the registration you have to enter the account number for which you want to register the alias. Select the account number for which you want to register the alias from the dropdown list of accounts.
2. Select from the account aliases type dropdown menu what type of alias you want to register.
 - e-mail address
 - telephone number
 - tax identification number
 - tax number
3. In the free text field that appears next, enter the alias in the specified format; you can find help for the registration by clicking on the  icon.

In the case of a tax identification number: After clicking the Register button, the tax identification number you have entered will be compared with the tax identification number registered at the Bank. If they match, the identifier can be attached to the selected account, otherwise we recommend you to visit your personal banking advisor with documents testifying your tax identification number.

4. In the section "Cancel previous attachment of alias" you may declare whether or not you request an account alias previously registered at another bank to be cancelled simultaneously.
5. Click on the Register button to launch the registration process.

If you have registered an e-mail address or telephone number, a confirmation code will be sent to you in the given channel, which shall be valid for 1 minute. If you have not received the code, click on the "I haven't received the code, send me a new one" button.

In the case of a confirmation code sent in e-mail, you should check the message in the spam folder as well.

6. Return the confirmation code, then click on the "Confirm" button.

Account Alias registration

Please check your order details. The validation code has been sent to the given account alias with the validity time of 5 minutes. In the case of e-mail type of account alias, please check your spam folder for the code.

II. ACCOUNT INFORMATION

1. Accounts overview

The content of account information

The account information view shows your Bank Accounts.

Possible account types:

- Current account: your Bank Account.
- Securities account: If you have Internet Brokering access, you can access information concerning your securities account from here as well.
- Credit card account: The balance of the account belonging to your credit card.
- Savings account: a technical type account in which your time deposits are recorded.
- Collateral account: a segregated account serving to manage the funds withdrawn from your free disposal.
- It is possible for our private banking customers to keep 7-day (CW) and 14-day (CT) call account as well. These pay higher interest rates than current accounts, but you are required to fix the deposited amount for a longer period (1 or 2 weeks, respectively). EUR or USD amounts can also be kept in call accounts.

The minimum amounts that should be deposited in the accounts are included in the List of Terms & Conditions from time to time in effect.

You can access your account only if it is in an **"active" status**.

Available balance is the balance of the given account, i.e. the cash available to you in the account.

By clicking on a selected account, you can display **more balance** and transaction details.

What does "account number" mean in the case of a HUF account?

In the case of HUF accounts, account number is displayed in its full 24-digit format (so-called GIRO number).

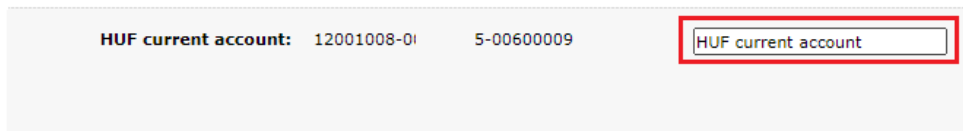

What does "account number" mean in the case of a foreign currency account?

In the case of a foreign currency account the in-bank short format is displayed, and the full 24-digit sequence is shown below that.

How can I know to which account number my different accounts belong?

Name of my account

Here you can name your accounts to facilitate orientation.

< Cancel

> Save

In order to distinguish your accounts more easily, you can give names to your accounts under the menu [Administration/Settings/Names of my accounts](#).

What can I see in "account history"?

In the **Account history view** you can see [what kind of cash movements occurred and when in the selected account](#). You can retrieve your account history [as long as 1 calendar year](#) in retrospect, [displaying up to 2,000 items at a time](#).

You can display your account history filtered in different ways as well by creating so-called "filter views". You can create views that show incomes or expenses only, or transfers to a specific account. At the Account history view line you can see the transactions as per which filter view is displayed at the moment.

Account history consists of two main parts:

- [Items to be booked](#)

Here you can see the pending items that [have not been booked yet in the system](#). Such can be for example an [order given in advance for a specific value date](#), or a [card transaction](#), or a [standing transfer order waiting to be executed](#).

- [Booked items](#)

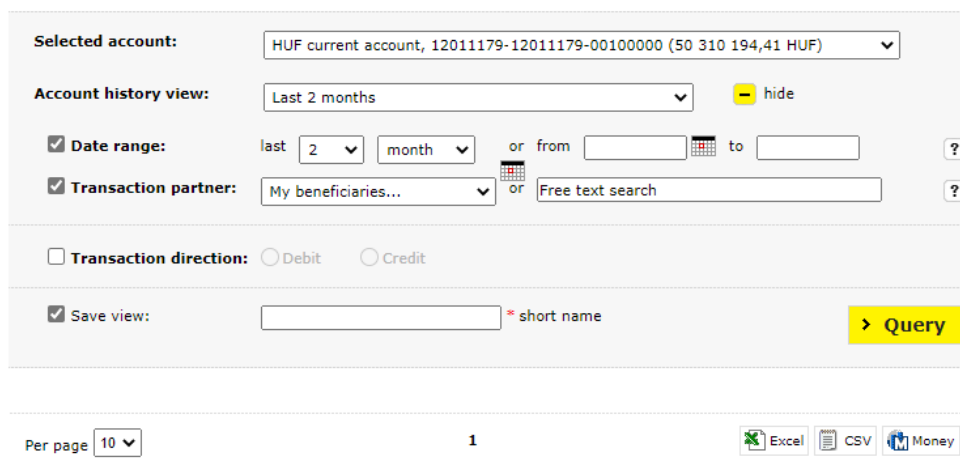

These are the transactions (cash movements) that [have been actually booked](#) in the Bank's system.

How can I change the current view of my account history?

By selecting a filter view you can control [which items are displayed](#) in the account history. Apart from the default view, you can create your own views according to specific criteria.

To display the form in which you can define your filter criteria, click directly **beside the Account history view line** the  **own view** button, or alternatively you can access the same from the menu option **Administration/Settings/Account history** as well.

Account history

The screenshot shows the 'Account history' filter form. It includes the following fields and options:

- Selected account:** A dropdown menu showing 'HUF current account, 12011179-12011179-00100000 (50 310 194,41 HUF)'.
- Account history view:** A dropdown menu set to 'Last 2 months' with a 'hide' button.
- Date range:** A section with a checked checkbox. It includes 'last' (dropdown: 2), 'month' (dropdown), 'or from' (calendar icon), and 'to' (calendar icon).
- Transaction partner:** A section with a checked checkbox. It includes a dropdown menu 'My beneficiaries...', 'or', and a 'Free text search' input field.
- Transaction direction:** A section with an unchecked checkbox and radio buttons for 'Debit' and 'Credit'.
- Save view:** A section with a checked checkbox, an input field for a short name, and a '* short name' label.
- Query button:** A yellow button with a right arrow and the text '> Query'.

At the bottom of the form, there is a 'Per page' dropdown set to '10', a page number '1', and three export icons: 'Excel', 'CSV', and 'Money'.

Filter by date range: If you only want to narrow down Account history items to a period between specific dates, you can do so easily by entering a Start and End date, optionally using the Calendar function.

Transaction partner: Here you can select a beneficiary defined previously or enter a search keyword that is included in the name of the transaction partner or in its account number.

Filter by transaction direction (only in the case of booked items): You can arrange your already booked orders by transaction types: Credit, Debit.

Save view: If you check this box, a text input field appears, where you can enter the short name of the view. The Query button will save the settings of the view under the given name.

Export booked items: The system enables you to export booked items. This means that you can save the items booked in your account from the program.

The data can be saved in the following formats:

- Microsoft Excel (xls)
- Microsoft Money
- CSV (text separated by semicolons)

Click on the icon of the format to select the format that is most convenient for you.

Booked items

Type	Date ▼	Amount	Transaction partner	Note	
Interest	2024.04.02 Tuesday	0,01 EUR			Details

2. Transaction limits

What does "transaction limits" mean?

The Bank sets **basic limits for all** users regarding certain HUF and foreign currency transactions initiated through online channels (internet banking and mobile application), which can be found in the currently effective Terms and Conditions List.

The user can access the function by clicking on the [Account Information / Account overview / Transaction limits](#) or [Administration / Applications / Transaction limits](#).

Maximum amount per transaction: HUF

Daily maximum number of transaction: Set the number to unlimited

 In order to increase account security, the Bank has set limits for certain HUF and foreign currency transfers made through digital channels, which you can modify at any time according to your needs.

The limit setting applies only to the account(s) accessible with the user identifier (Direkt identifier) associated with the currently used customer profile.

[Accounts related to the customer profile](#)

 **Information about transaction limits**

- Limits can be modified free of charge in myRaiffeisen application and on DirektNet.
- The maximum amount limit per transfer applies to all transactions made through digital platforms.
- The daily maximum number of transactions applies to myRaiffeisen app, myRaiffeisen portal, but separately to DirektNet, except for transactions initiated by payment request.
- When you make a transfer, we always apply the lowest limit. This could be daily, transfer or signature limit.
- Transaction limits have no effect on card limits.

◀ Cancel
▶ Next

Transaction limits details:

- **Maximum amount per transactions:** restricts the highest amount that can be ordered per transaction. This limit amount

- applies to all digital platforms, and

- applies to both HUF and foreign currency transfers. The amount of foreign currency transfers is automatically converted to HUF for consideration.

- **Daily maximum number of transactions:** restricts the total number of orders that can be placed on given day. This number limit applies jointly to the MyRaiffeisen mobile application and the MyRaiffeisen portal, and separately to DirektNet, except for instant transfers initiated with a payment request.

The limit setting applies only to the account(s) accessible the user identifier (Direkt identifier) associated with the currently used customer profile.

When you make a transfer, we always apply the lowest limit. This could be daily, transfer or signature limit.

For minor account holders, the limit modification feature is not available on online platforms until they reach the age of 18; only limit inquiries are permitted. Limits applicable to minor clients can only be modified by the legal representative alone or the minor together with the legal representative at a bank branch or through the telephone customer service.

In the case of joint corporate signatories, each signatory shall be entitled to amend, in respect of themselves, the pre-established per-transfer maximum amount and the daily maximum number of transfers. Upon the recording of a payment order, these limits shall be reviewed separately for each signatory.

How can I change the current transaction limits?

- To change the maximum amount per transfer limit, enter the new desired amount and press **Next** button.
- To change the daily maximum number of transfers limit, enter the new desired number and press the **Next** button. You can also set it to unlimited by selecting the „Set transfer limit to unlimited“ checkbox.

After setting the values, click the **Next** button to display the **Signature** window, where you can review the requested limit changes and edit them by clicking **Modify** button.

After selecting the appropriate signing device and entering the password, click the **Sign** button to display the **Confirmation** window.

Upon successful limit modification, the updated limits take effect immediately.

3. Checking past transactions

How can I print the details of a transaction item?

In the transaction log displayed in the [Account history page](#) you can find a [Details](#) button at the end of each line, and by clicking on this button you can view and print the details of the given transaction.

Where can I view transactions older than 1 year?

You can get information about transactions older than 1 year from our customer service at phone number [06-80-488-588](#), or in-person, at our [branches](#).

How can I know if my order has been executed or not?

After you have signed a credit transfer order, a confirmation screen will appear in each case including information of the successfulness or failure of the transfer. Besides, you can also check your transactions by clicking on [Account information/Account history](#) menu.

Can I get notices on transactions affecting my card and account?

By means of our [Mobile Banking notification service](#) you can get SMS messages on all transactions affecting your cards and current accounts. The service can be [requested online as well](#) under the menu [Administration/Requests/Mobile Banking service](#).

How long does it take for a card purchase to appear in my account?

If you do a purchase with your card, the data of the purchase will be visible [within a few minutes](#) in the DirektNet system as well. Displaying the account history of the given account, you can see the last purchase item on the [Account information/Account history](#) page in the first line of the transaction log, among ["Items to be booked"](#).

How can I view my overdue debts?

In the [Account information/Account history](#) menu, if there are any overdue items/debts in any of your accounts, these are displayed as ["Overdue debts owed to the Bank"](#).

You can view all unpaid items belonging to the selected account, including cancelled/reverse items as well (for 60 days [calculated](#) from the date of the cancellation or reversal).

Data included in the statement:

- **Type:** principal repayment, fee, commissions, etc.
- **Value date:** the initial date when the amount was originally (for the first time) due for payment
- **Amount:** the overdue amount
- **Status:** active, cancelled, partially repaid (outstanding/active overdue items are marked in red, and their status is "Active")
- **Note:** contract ID, reference data, narrative data, original transaction date and amount
- **Total:** the sum total of "Active" amounts

In the **Account information/Account balance details** menu, below the selected account the **sum total of overdue debts** owed to the Bank **appears in a separate line, in red**. If there are no overdue items belonging to the given account, this line shows a value of 0.

Account balance details

Selected account:		001, 12020304-01 -00100002 (57 368,10 HUF)		
				Account history
Booked account balance		3 007 368,10 HUF		
+ Account credit limit		0,00 HUF		
- Blocked amounts		2 950 000,00 HUF	Including also the amount of unpaid loan repayments due today	
- Overdue items		0,00 HUF	EN_Hitelkeret túllépésből eredő lejárt tartozásokat is tartalmazza.	?
+ Accrued amount		0,00 HUF		
Available account balance		57 368,10 HUF		
Accrued interest		29,61 HUF	Accrued interest less interest tax. No interest tax is deducted in case of Permanent Investment Savings Account deposits.	

3. Saved transactions

You can access this function from the Account Information / Saved Transactions menu. Interrupted transactions can be continued here.

If transactions has been rejected for any reason its details can be found in the Saved Transactions / Rejected menu.

4. Declaration for the free cash withdrawal

The order can be accessed from the Account Information / Declaration For The Free Cash Withdrawal menu.

This feature is available to any retail account holder who is at least 16 years old. On the page, you can check whether you have already declared your free cash withdrawal for your specific bank account.

III. TRANSFER, CONVERSION

1. Transaction types

What type of orders can I send as a retail customer?

To give orders, select the adequate line of the menu on the left of the screen, then click on it to select an order type:

- **HUF transfer**—transfer of HUF amount within Hungary

- **Special foreign exchange conversion**
- **FCY transfer**—transfer of foreign currency amount within Hungary or abroad
- **SEPA transfer**
- **Payment request**
- **Cheque payment**
- **Standing orders**
- **Direct debits**
- **Beneficiaries**

After you have selected the given order type, the form you have to complete to enter your transaction appears. As the forms to be completed to give orders of different types have different structures, the fields to be completed are described in detail in the following sections.

What type of orders can I send as a corporate customer?

Only corporate

To give orders, select the adequate line of the menu on the left of the screen, then click on it to select an order type:

- **HUF transfer**—transfer of HUF amount within Hungary
- **Special foreign exchange conversion**
- **FCY transfer**—transfer of foreign currency amount within Hungary or abroad
- **SEPA transfer**
- **Payment request**
- **Standing orders**
- **Direct debits**
- **VPOP transfer**

Saved orders will be stored for 30 days by the system, after which they will be deleted automatically.

2. Transaction implementation steps

A) HUF transfer

In the **Transfer, conversion** menu, choose **HUF transfer**.

- 1. Source account:** Your account, from which you wish to launch the transfer. The transferred amount will be debited to this bank account.

You can select the source account from a dropdown menu, where the order of the items within the list will change according to their use.

- 2. Available balance:** The disposable amount available in the source account.
- 3. Target account:** Here you can select the beneficiary to which you wish to transfer the given amount. If you want to send cash to an account to which you have not made any transfers yet, please select the option "New beneficiary". In the new beneficiary menu option you may choose account aliases as well, depending on which you wish to use. In the scope of the Instant Payment System, account aliases may only be used up to a HUF 20 million limit.

Name of beneficiary:	Aladár	
Account number:	11784009-11784009-02130000	
Load data of previous payments		
Amount to be transferred: *	<input type="text"/> HUF	?
Order date:	<input type="text" value="2021.02.10"/> 	?

- 6. Save beneficiary:** Here you can save the data of the beneficiary. If you check this option, you are required to provide a short name for the beneficiary. This is the name that you will see next time when selecting the beneficiary. In the case of account aliases, you can save the account alias (e-mail address, phone number, taxpayer identification number, tax number) as beneficiary.

Email address of beneficiary: *	<input type="text" value="teszt@alma.hu"/>	?
Save beneficiary:	<input checked="" type="checkbox"/>	Short name: * <input type="text"/> ?

- 7. Amount to be transferred:** The amount that you want to transfer. In the case of an instant credit transfer, the amount may not exceed HUF 20 million.
- 8. Order date:** Here you can identify the day on which you want the Bank to start the transfer. It is also possible to give order(s) with future dates. You can also use the interactive calendar function to select the desired day, which you can reach by clicking the "Calendar" button.
- 9. Notice:** Message that you can send along with the transfer to the beneficiary. Completing this field is optional.

After providing the data of the transfer, by clicking on the **Cancel** button you can return to the main menu **Transfer, conversion** without saving your order.

If you click on the **Next** button, you can sign the orders or give further orders in the new window that appears.

We are registering your order.

Please choose: do you want to register more orders and then sign all of them in one go at the end, or do you want to sign the orders you have entered so far?

> Register next order

> Sign order

If you click on the **Sign order** button, the **Signature** window appears.

In the case of a successful order, the data of the sent orders appear, along with the Transaction Date. From here you can access the **Account history**, and can also register new HUF transfer orders.

Of failed orders, you will be informed after the order has been sent. The details of the transfer can be seen in the Saved orders menu, under the Rejected items tab.

B) Special foreign exchange conversion

What is "Special foreign exchange conversion", and how can I use it?

In the **Transfer, conversion** menu, using the **Special foreign exchange conversion** function you can launch spot conversion between two different currencies at a competitive exchange rate. For example you can initiate conversion from your HUF account to your USD account, as well as within your Securities Account or Long-Term Investment Account. The instant currency exchange option is available on business days between 08.00 and 18.00. The minimum amount

for each conversion transaction is HUF 1,000 or the equivalent in foreign currency, and the maximum amount is HUF 40,000,000 or the equivalent in foreign currency.

- Securities account TBS2017
- Securities account TBS2016

If a securities account or Long-Term Investment Account is selected as source account, you have to identify the currency of the amount to be converted. After this, select a target currency as well.

Amount of the conversion: * In the source currency 100000 HUF ?

In the target currency , EUR ?

- Target account:** The account to which the amount will be credited in the target currency after the conversion. You should identify a target account only if the source account is a

current account (i.e. in the case of a securities account or Long-Term Investment Account the target account will be identical with the source account).

3. **Amount of conversion:** The amount that you want to convert. This can be identified either in the source currency or in the target currency, as convenient.
4. **Value date of conversion:** The day on which you want the conversion to be executed.

In the case of a spot currency exchange, after completing the form click on the Next button to see the signature screen. You have 60 seconds to sign this transaction. If you sign the order after the deadline has passed, the transaction will not be performed.

C) Currency transfer

How can I transfer foreign currency to a domestic beneficiary?

You can initiate currency transfers in the following currencies: CZK, PLN, HRK, RON, RUB, CHF, GBP, DKK, TRY, NOK, EUR, SEK, HUF, AUD, SKK, JPY, USD, ROL, CAD.

Based on the approval of the Council of the European Union, as of 1 January 2023 Croatia will adopt the euro (EUR), and concurrently Croatian kuna (HRK) will be phased out. In view of the above, **account keeping and acceptance of payment orders in Croatian kuna (HRK) will also be discontinued (as of 20/12/2022) at the Bank.**

The same data need to be entered as in the case of a "HUF transfer", with the following additions:

- 1. Raiffeisen Bank customer:** Check this option if the beneficiary of the transfer also keeps their account at Raiffeisen Bank, and the data of the beneficiary's bank will be filled in automatically.
- 2. Bank's name:** Name of the beneficiary's account-keeping bank.
- 3. Bank's address:** Full address of the beneficiary's account-keeping bank.
- 4. SWIFT code:** The SWIFT code (also referred to as "SWIFT BIC" or "BIC") is an international identification code consisting of 8 or 11 characters that serves to identify the bank of the beneficiary. For example the SWIFT code of Raiffeisen Bank Hungary is: UBRTHUHBXXX. Completing this field is mandatory.

You can identify the amount to be transferred in two ways

- 5. In the currency of the source account:** The amount to be debited is specified in the currency of the source account.

- 6. In a selected currency:** You can select the currency of the transfer from the dropdown list.
- 7. Performance deadline:** Here you can specify whether the transfer should be processed on the date of submission plus 2 banking days (Normal) or plus 1 banking day (Urgent) or on the date of submission (Extra Urgent).

I will pay the commission of Raiffeisen Bank only: This is the default option, according to which you undertake to pay the commission charged by Raiffeisen Bank. In the case of the transfer of foreign currency abroad:

In the case of a transfer within the EEA (regardless of the currency) with or without conversion, the transfer may only with method of cost bearing is SHA (the commission of Raiffeisen Bank is borne by the originator, and any further incurred fees and charges are paid by the beneficiary).

In the case of a transfer outside the EEA, some foreign partner banks may deduct their own fees from the transferred amount, regardless of the chosen method of cost bearing, over which the Bank has no influence.

How can I transfer foreign currency to a foreign beneficiary?

The same data need to be entered as in the case of a "Transfer to domestic FX account".

Incorrectly/incompletely filled orders and transfer orders given in **NON-IBAN** format will be executed at Raiffeisen Bank subject to the terms set out in the List of Terms & Conditions from time to time in effect.

D) SEPA transfer

What is "SEPA transfer"? By "SEPA transfer", special payment methods, procedures and standards that are **uniform within the euro zone** are meant. By means of SEPA transfer, **funds** available in a bank account (or in an account kept by any other payment service provider) **may be transferred in the euro currency to a bank account kept within any member state of the SEPA area, or in another member state.**

Euro payments within the euro zone are becoming "domestic" transactions in the sense that **no difference will be made** in the case of payment transactions effected within member states of the euro zone and between such member states (cross-border transactions).

How can I carry out a SEPA transfer?

On the **Orders, transfers** page, click on the **SEPA transfer** menu option.

SEPA transfer

* Required fields

Selected account: *	HUF current account, HU13-1205-0002-0102-8451-0010-0002 (9 468 047,29 HUF) ▼

Save beneficiary:	<input type="checkbox"/> ?

1. **Source account:** Your account, from which you launch the transfer. The transferred amount will be debited to this account.
2. **Target account:** Decide whether you want to transfer currency to an already saved or a new beneficiary.
3. **Name of beneficiary:** You have to provide the full name of the beneficiary of the transfer.
4. **Account number of beneficiary:** Account number of the beneficiary in IBAN format.
5. **Bank's name:** Name of the beneficiary's account-keeping bank.
6. **Bank's address:** Full address of the beneficiary's account-keeping bank.
7. **SWIFT code:** The SWIFT code (also referred to as "SWIFT BIC" or "BIC") is a code series consisting of 8 or 11 characters that serves to identify the bank of the beneficiary.
8. **Save beneficiary:** Here you can save the data of the beneficiary. If you check this option, you are required to provide a short name for the beneficiary. This is the name that you will see next time when selecting the beneficiary.

You may as well provide further details of the beneficiary; to do so, open the line below.

9. **Address of beneficiary:** Here you can enter the address of the beneficiary; if the space is insufficient, continue in the second, third and fourth lines.
10. **Country code of beneficiary:** Here you can select from the dropdown menu the country you wish to transfer to.

- 11. Type of beneficiary:** Here you can supplement the data concerning the beneficiary in the case of private individuals and entities. In the case of an undefined beneficiary type, you cannot enter additional identifiers.
- 12. Amount to be transferred:** Enter the EUR amount that you wish to transfer. You can enter a SEPA transfer only in the EUR currency!

+ Other beneficiary data

Amount to be transferred: *

amount of order in the currency of the transfer EUR ?

amount of order in the currency of the account to be debited EUR

- 13. Transfer type:** If the beneficiary also keeps their account identified as the target account at Raiffeisen Bank Hungary, check the In-bank box, and the data fields concerning the bank of the beneficiary will be filled in automatically. In the case of an Outgoing transfer, you have to fill in the data concerning the bank manually.
- 14. Block amount until specified date:** If you do not want the transfer to be executed immediately, you can have the amount serving as coverage for the transfer blocked.
- 15. Originator's transfer order reference:** Provided by the originator, this value will individually identify each order filed by the originator to their bank. This reference will accompany the order from its submission until the completion of the same. The originator may not ask any other reference to be used/reproduced to identify the transfer order. This value is determined by the originator, and is supposed to be meaningful for the originator only.

The order date may not be a date more remote than 1 year ahead of the current date.

- 16. Title of SEPA transfer:** You can identify the legal title of the transfer here.
- 17. SEPA transfer categorised reason code:** Here you can select from the dropdown menu a predefined categorised reason code for the transfer.
- 18. Performance deadline:** Here you can choose the speed of execution of the foreign currency transfer transaction. Please note that the order will be executed on the date of its submission only if the cut-off time for the admission of foreign currency transfers is met. Orders sent in after the cut-off time will be executed on the next banking day only. The different levels of urgency have different performance deadlines and also cost consequences, for more information on this see the List of Terms & Conditions.
- 19. Transfer charges:** It must be SHA, as euro payments within the euro zone are becoming "domestic" transactions.
- 20. Narrative:** Message that you can send along with the transfer to the beneficiary.
- 21. Order date:** Here you can identify the date when the order is to be launched. It is on this date that the Bank will debit your account with the relevant amount, and launch it

towards the beneficiary. If you leave the date of submission—which is displayed by default—as the order date, but the order is received only after the Bank's cut-off time, or if the order date is not a banking day, the order will be launched on the first banking day that follows the identified date.

After signature, the confirmation screen will appear.

E) Payment request

A payment request enables you to submit a request for payment **within Raiffeisen Bank** up to **HUF 20 million**, which the recipient of the request (payer) may settle with a credit transfer.

Since 1 April 2020, it has been possible to use payment requests between different banks as well; however, the service is not provided by all banks as yet. Therefore if you want to send a payment request to another bank it is recommended to make sure that they offer payment request service.

How can I submit and receive payment requests?

You can launch a payment request as well as manage (accept or reject) your outgoing and incoming payment requests on the Transfer, conversion page, in the Payment request menu.

Where can I view the status of my submitted payment requests?

You can view the status of your submitted payment requests in the Outgoing payment requests menu option. Submitted payment requests can be viewed for 90 days. The status of a payment request can be one of the following:

- Erroneous (including inadequate parameters that e.g. do not match the requirements of instant credit transfers)
- Waiting for payer's approval (the payment request has been submitted, but has not been accepted by the payer yet)
- Accepted (the payment request has been accepted by the payer)
- Rejected (the submitted payment request has been rejected)
- Expired (the submitted payment request was not accepted by the date of expiry),

Payment request

Payment requests can be managed on this page.

[> New payment request](#)

Outgoing payment requests		Incoming payment requests		
Payer	Amount	Due date Validity	Status	
Fizetési kérelem fogadó 12010855-01**** 3-00100002	100,00 HUF	2021.03.02 2021.03.02	Waiting for payer's confirmation	Details

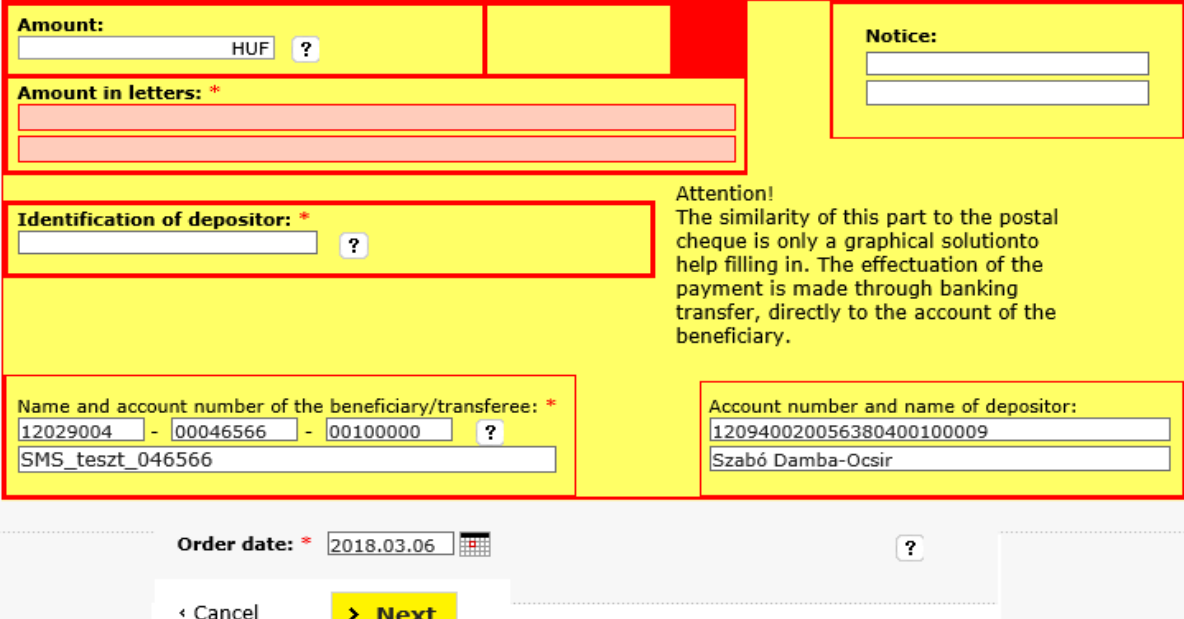

F) Cheque payment

How can I pay cheques? You can pay "cheques" (postal payment order) in a simplified form on the [Orders, transfers](#) page, in the [Cheque payment menu](#) option. Fill in the blank fields on the basis of the cheque, and the Bank will transfer the amount from your selected account.

- 1. Source account:** Your account, from which you wish to launch the transfer. The transferred amount will be debited to this bank account.
- 2. Target account:** Account number of the beneficiary.
- 3. Amount:** Enter the amount to be transferred.
- 4. Notice:** Message that you can send along with the transfer to the beneficiary. Completing this field is optional.
- 5. Identification of depositor:** Enter your depositor identifier.
- 6. Name and account number of the beneficiary/transferee:** Target account and name of the beneficiary.

- 7. Order date:** Here you can identify the day on which you want the Bank to start the transfer. It is also possible to give order(s) with future dates. You can also use the interactive calendar function to select the desired day, which you can reach by clicking the "Calendar" button.

Save beneficiary: Here you can save the data of the beneficiary. If you check this option, you are required to provide a short name for the beneficiary. This is the name that you will see next time when selecting the beneficiary.

G) Standing orders

What is a standing credit transfer order? **In the case HUF transfers** it is possible to give standing orders. When giving a standing order, you can define **how frequently you want the order to be executed**. On the due date of payment, the item will be **transferred automatically** to the beneficiary you have identified. A standing order will be processed on the banking day following the date of submission of the order.

How can I view my standing orders?

On the **Orders, transfers** page, click on the **Standing orders** menu option. It is also possible to change and cancel active standing orders, as well as to enter new standing orders.

How can I register new standing orders?

On the **Orders, transfers** page, click on the **Standing orders** menu option, then click the -> **Add New Standing Order** button on the top of the page.

- 1.** Source account: Your account, from which you wish to launch the transfer. The transferred amount will be debited to this bank account.
- 2.** Select beneficiary: Here you can select the beneficiary to which you wish to transfer the given amount. If you want to send cash to an account to which you have not made any transfers yet, please select the option "New beneficiary".
- 3.** Beneficiary name: Name of the recipient of the transfer (private individual, e.g. John Field; company, e.g. Budapesti Elektromos Művek Nyrt.). If you have selected an existing beneficiary in the menu "Select beneficiary", this field will be filled in automatically.
- 4.** Beneficiary's account number: GIRO account number of the beneficiary of the transfer. This sequence may consist of 2x8 or 3x8 digits.
- 5.** Save beneficiary: Check this option if you want to transfer to this account in the future as well.
- 6.** Transfer period: Please select from the list how frequently and on which day you want the transfer to be made.
- 7.** Possible frequencies: weekly, fortnightly, monthly, quarterly, semi-annually, annually.
- 8.** Possible days: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday.
- 9.** Amount of standing order: Here you should define the amount that you wish to transfer during the life of the standing order at the frequency determined by yourself. The amount to be transferred regularly can only be entered in HUF into a HUF account.
- 10.** Amount of first payment differs from the standing order amount: By checking this option when giving a standing order, you can arrange that the first amount to be transferred shall be different from the amount to be transferred on a regular basis. You cannot change the amount entered until the first fulfillment.
- 11.** Until withdrawal: If you check this box, the standing order will remain valid until you withdraw the same.
- 12.** Till date: You can define an end date for the validity of standing order.
- 13.** It is not possible to change or delete a regular reference on the due date.

E) Direct debits

What is a direct debit order? By setting direct debit orders, you may authorise the service providers selected by yourself to debit your account, i.e. this way your public utility invoices can be paid automatically.

Where can I find my direct debit orders?

On the [Orders, transfers](#) page, click on the [Direct debits](#) menu option.

In the **Authorisations** tab, you can see your active authorisations, as well as those that are in the accepted, saved, erroneous or deleted status. You can also modify or delete your direct debits here.

Items awaiting collection can be viewed in a **tab of the same name**. You can reject items awaiting collection. If you receive an order that is in excess of the limit, you can authorise it here.

The **Items can't be executed** tab shows the **orders** that could not be executed (e.g. items in excess of the limit, rejected items, blocked account, insufficient balance).

How can I record a new direct debit authorisation?

- **Selected account:** This is the account to be debited, from which you launch your direct debit orders.
- **Service provider:** Select the beneficiary service provider from the list of service providers. Counter-check the service provider ID visible in the utility invoice against the one included in the list.
- **Start of validity:** Select a starting date for the validity of the authorisation.
- **Validity:** Select the end date for the validity of the authorisation, which can be valid until withdrawn, or until a specific date that can be defined here.
- **Limit amount:** Amount limit: provide an authorised maximum limit. If you do not wish to define an upper limit, please provide 0 Ft. In this case, the service provider may initiate direct debit with an unrestricted amount on your bank account. The value '0 Ft' at Amount limit means that there is no upper limit to the amount defined.
- **Consumer's name:** Specify the name of the consumer.
- **Consumer's address:** Specify the address of the consumer.
- **Consumer ID:** Enter your unique consumer ID received from the service provider. If you cannot find it in the invoice issued by the service provider or in your contract, call the service provider for help.

Record a new direct debit authorisation

* Required fields

Selected account: *	HUF current account, 12001008-0. 5-00600009 (61 084,00 HUF)		▼

Sending limit to utility provider: *	<input type="checkbox"/> Not allowed		
Limit amount: *	<input type="text"/>	HUF	
Consumer's name: *	<input type="text"/>		?
Consumer's address: *	<input type="text"/>		?
Consumer ID: *	<input type="text"/>		?

< Cancel

[> Next](#)

How can I modify an active direct debit order?

On the [Orders, transfers](#) page, click on the [Direct debits](#) menu option. In the case of an existing authorisation, you can only modify the end date of validity and the limit amount only. If you want to modify any other data, you should delete the authorisation and enter a new one.

How can I delete an active direct debit order?

On the [Orders, transfers](#) page, click on the [Direct debits](#) menu option, then on the [Delete](#) button.

To delete an authorisation, you need to enter your password. Deleted items will be visible for one more year after deletion among authorisations, in a "deleted" status.

F) Credit card top-up

How can I fill up my credit card from the current account? You can top up your credit card on the **Orders, transfers** page, in the **Credit card top-up** menu. In this menu option, you can transfer funds to your credit card from your current account. Select the source account, and enter the amount to be transferred.

Fill up credit card

1 Saving order
2 Signature
3 Confirmation

* Required fields

Selected account: * ?

Target account: Credit card account (279 241,69 HUF)

Amount to be transferred: * HUF ?

Closing balance, according to the last statement: 326 485 HUF

Actual used balance: -305 759 HUF

Order date: 2021.03.02

◀ Cancel
▶ Next

- 1. Source account:** Select the account from which you wish to fill up your credit card.
- 2. Target account:** The credit card account will be displayed automatically.
- 3. Amount to be transferred:** Enter the amount you want to transfer to the credit card. By default, the line shows the minimum repayable amount.
- 4. Closing balance according to the last statement:** Total aggregate debt on the last closing date of the credit card (25th day of each month). This value will remain unchanged until the next closing, even if you have filled up the balance in the meantime.
- 5. Actual used balance:** Amount you have actually spent from the credit line on the date of viewing.
- 6. Order date:** By default, the current date will be shown here.

After specifying the source account and the amount, click on the **Next** button. Then the signature screen will appear. You can validate the fill-up with the same password as you use to log in to the internet banking platform.

3. Technical issues

Can I use an earlier transfer as the starting point for a new order?

The data of previous transfers entered on DirektNet is automatically saved by the interface. If you want to transfer to a beneficiary to which you have already transferred before, a „Load data of previous payments“ button will appear in the order form, using which you can load in the data fields of your previous transfer orders **executed on DirektNet**. The content of the data fields can be modified after the loading as well.

The data of transfers will be stored by the system as long as the beneficiary is included among saved partners.

Can I transfer abroad via DirektNet?

Yes, you can also give transfer orders directed abroad under the menu option **Transfer, conversion/FCY transfer**.

How can I set regularly repeated, automatic transfers?

You can give orders for periodically repeated fixed-amount transfers under the menu option **Transfers, deposits/Standing orders**.

What happens if there is insufficient balance in my account when a standing order should be executed?

If the balance in the Customer's payment account is insufficient to cover the performance of the order, the Bank shall queue the standing order **for a period of 35 days at maximum**, and during this period it shall try to execute the order **on each banking day** until the order is withdrawn, otherwise until **the next due date of payment**.

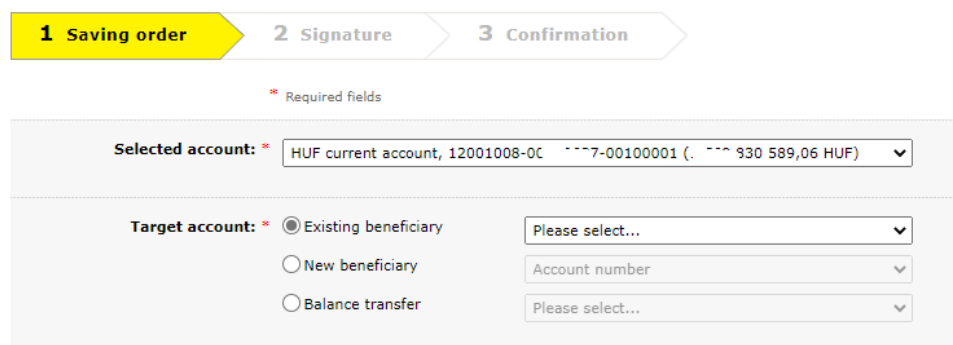

What happens if the balance in my account is insufficient for performance when I give an instant HUF transfer order, but during the day some coverage is incoming to the account?

If in the moment when the order is given the balance is insufficient for performance, the order will be rejected immediately due to insufficient balance.

How can I set in the system that my utility invoices are paid automatically?

You can give authorisations for direct debits to the service providers selected by yourself under the menu [Transfers, deposits/Direct debits](#). After this, your utility invoices can be paid off automatically.

HUF transfer

Target account: *

Existing beneficiary Please select... ▼

New beneficiary Account number ▼

Balance transfer Please select... ▼

What happens if there is insufficient balance in my account when a direct debit should be executed?

In such case the collection of the given item will fail due to insufficient balance. Of this, you will receive a warning message, which you can view by clicking on the [Notifications](#) link in the DirektNet header. As regards information about when the service provider concerned **will try to collect the failed item again from your account, please refer to the service provider.**

Can I transfer from a credit account?

Yes, retail customers can launch [HUF transfers](#) from their credit card accounts to any domestic account—whether to an own account or an account belonging to anyone else—against their available credit line.

The transaction can be launched:

- in the [Account information/Accounts overview](#) menu by clicking on the "HUF transfer" button besides the credit card account, or
- in the [Transfer, conversion/HUF transfer](#) menu option, by completing the form appearing upon the selection of the credit card account.

Can I view direct debits awaiting collection and direct debits that cannot be executed in DirektNet?

In [the Transfer, conversion/Direct debits](#) menu option, the "Direct debits" screen belonging to the selected account shows authorisations, items awaiting collection, items that cannot be executed, as well as not fulfilled items.

[> Next](#)

1. **Selected account:** Your bank account, from which the desired amount of time deposit will be opened.
2. **Type:**
 - **One-off deposit:** In the case of a one-off deposit, the amount of the initial deposit, increased with accrued interest, shall be credited to your current account in lump sum at the end of the tenor. Then you can access the amount increased with interests. If you do not give a new order, the cash will be freely available in the account going forward.
 - **Repeated deposit:** In the case of a repeated deposit, at the end of the specified term a specific part of the deposit will be automatically reopened as a time deposit for another period of the same length (the reopened amount can be the amount of the initial deposit without interest, or the total amount of the deposit including interest).
3. **Type of repetition:** Reopen starting deposit: After the expiry of the tenor, the original principal amount is reopened, whereas the interest is transferred to your current account.

Reopen deposit increased by the accrued interest amount: Upon the expiry of the tenor, interest is added to the principal amount, and it is the sum of these that is reopened.

In case the amount increased by the accrued interest is reopened, upon the expiry of the tenor interest is added to the principal amount, and it is the sum of these that is reopened.
4. **Deposit amount:** The intended deposit amount (minimum HUF 100,000).
5. **Tenor:** Please select the tenor of the time deposit.
6. **Deposit start:** The time deposit will be opened for the predefined tenor starting on this date.
7. **Validity:**
 - **Until cancel:** If you check this box, the time deposit will be reopened again and again until you cancel the order.
 - **Number of periods:** You can set how many times you want the time deposit to restart.

2. Early withdrawal

This function of DirektNet is **available to retail customers only**.

The **Early withdrawal** and **Withdrawal on restart date** menu options show the time deposits regarding which an early withdrawal or withdrawal upon restart can be made (one-off and repeated deposits).

› Deposits overview
› Open new time deposit
› Early withdrawal of deposits
› Withdrawal of deposits

In the menu on the left, by clicking on the menu options [Early withdrawal](#) and [Withdrawal on restart date](#) you can display the time deposits in respect of which early withdrawal or withdrawal upon restart can be made. You can withdraw a deposit on the restart date only in the case of a repeated deposit. If you withdraw a deposit on the restart date, you make the repeated time deposit expire upon the next restart date.

If you click on the [Early withdrawal/Withdrawal on restart date](#) button at the end of the data series of the relevant time deposit, the data of the deposit will be displayed.

In the data form, click on the [Next](#) button.

To approve the early withdrawal or withdrawal on restart date, enter your DirektNet password, and click on the [Sign](#) button.

Early withdrawal of deposits

On this page you can early withdrawal your deposits. Please select the early withdrawal deposit and click to the early withdrawal of deposit button.

V. CARDS

1. Bankcards

How can I inform the Bank of my card-related comments?

In the card complaint function of DirektNet — that is **available to all our private individual customers** — you can simply and quickly inform us about all complaints and comments of yours related to your card.

1. Please select the Card menu in the upper horizontal bar.
2. Please click on the bankcard complaint option in the menu that appears on the left.

Upon the suspicion of abuse, you should without delay make sure that your card is banned at the Raiffeisen Bank's call centre at phone number 06-80-488-588. Please take note that the Bankcard Complaint Form completed electronically in Raiffeisen DirektNet and sent to the Bank is not equivalent to the banning of the card affected by the abuse, hence is insufficient to prevent further abuses.

3. In the page that appears, you can find information about the process for card complaints. Please click on the "Bankcard Complaint Form" or the "Click here to complete the Bankcard Complaint Form" link.

Bankcard Complaint

In case of fraud suspicion, You are liable to take care forthwith about the bankcard cancellation at the Bank's Customer Service. Completing the Bankcard Complaint Form doesn't mean that the fraud-concerned bankcard is cancelled, and by this the further fraudulent transactions are prevented.

If our Bank has debited your bank account with the amount of transaction(s) executed using the bankcard issued to the Card Holder, and you do not consider these debit(s) to be justified, you may submit your complaint to our Bank:

- at a branch of the bank,
- to a Raiffeisen Direkt operator, or
- by completing the Bankcard Complaint form via our website.

The procedure for submission and investigation of bankcard complaints via the internet is as follows: Using the Form, you need to supply us with a few items of personal information and data pertaining to the disputed transaction. Please give precisely the requested information, especially with in the compulsory fields marked with an asterisk (*). A failure to provide this information could impede/prevent the successful investigation of your complaint.

If you do not attach any documents related to the disputed transaction (e.g. receipts, cash payment invoice, contract, etc.) to the Form, but later send them to our Bank by post, fax or email, please make sure to indicate on them the reference number, which you will receive from us in an email.

The Bank forwards complaints that it is not itself authorised to investigate, via the international card organisation, to the credit institution that concluded the contract with the given acceptance point, or which operates the ATM or branch cash desk concerned.

The Bankcard Operations Department will notify you in writing of the result of the investigation into the complaint.

Please note that if you wish to have the amount of the disputed transaction credited to your account in advance prior to the final conclusion of the complaint investigation, you may request this by accepting the Bankcard Declaration at the end of the Form. The Bank might credit the amount of the disputed transaction to your account within 5 banking days after our letter date, but reserving the right to reject the complaint. If the investigation conducted into the complaint concludes that the complaint is unfounded, our Bank will retrospectively debit your account with the amount of the transaction constituting the subject of the dispute, as well as the other fees payable in the event of an unfounded complaint as per the latest effective List of Conditions and any costs that have arisen as a result of the complaint. Please be reminded that in the case of a transaction performed before the cancellation of a lost or stolen card took effect, the Bank will not perform advance crediting even if a declaration is submitted.

[Click here to complete the Bankcard Complaint Form](#)

4. Please complete the form that appears (the fields marked with asterisk are mandatory). You can attach a word, excel, jpg or pdf file of maximum 1 MB to the complaint.
5. In the confirmation screen displayed after the successful completion of the form, you can see the reference number of your complaint. Please keep this number for future reference so that you can inquire about the status of your complaint at our Complaint Management Group (see www.raiffeisen.hu/contacts).

What is limit modification?

Through DirektNet you can change the limits concerning the daily number and maximum amount of your cash withdrawal and payment transactions in the [Card/Limit modification](#) menu option.

Limit modification

* Required fields

Account: *

Select the account and the pertaining card in respect of which you wish to change the card limits (e.g. maximum amount of cash withdrawals).

Name on the card:	<input type="text"/>	
Amount of cash withdrawals:	<input type="text" value="500 000"/> HUF	Maximum: 500 000 HUF
Number of cash withdrawals:	<input type="text" value="5"/>	Maximum: 5
Amount of payments:	<input type="text"/> HUF	Up to available account balance <input type="checkbox"/>
Number of payments:	<input type="text" value="15"/>	Maximum: 15

In the data form that appears, you can change the maximum amount and the number of daily cash withdrawal transactions. Here you can set the upper limit of daily payments as well, unless the option "Up to available account balance" is checked. The number of daily payments can also be modified here. After the modification, if you click on the [Next](#) button, the **Signature** window appears, where you can check your requested limit modifications, which you may as well further edit by clicking on the [Edit](#) button.

After selecting the appropriate signature tool, and entering the password, if you click on the [Sign](#) button, the **Confirmation** window appears.

We are registering your order.

Please choose: do you want to register more orders and then sign all of them in one go at the end, or do you want to sign the orders you have entered so far?

[> Register next order](#)

[> Sign order](#)

2. Online Credit Card

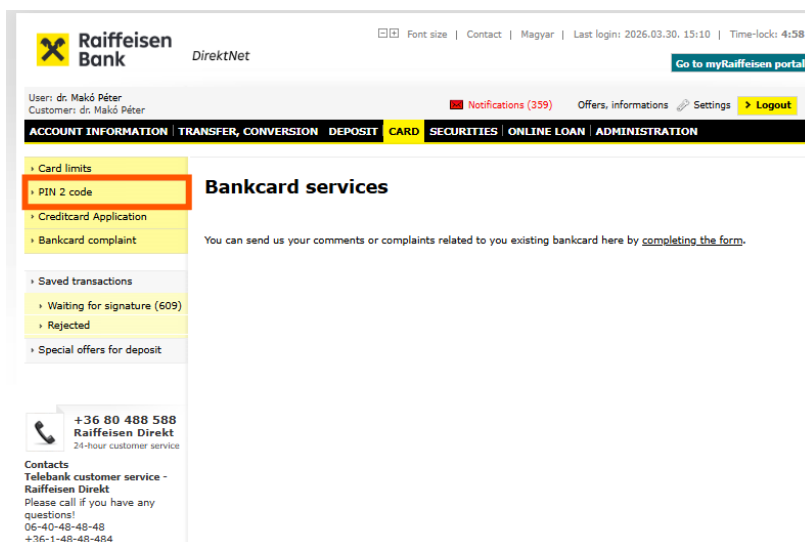

By clicking on the **Card / Online Credit Card** menu item, you can quickly and easily apply for an online credit card, which allows you to pay comfortably and securely both domestically, abroad, and online.

For the detailed terms and conditions, please refer to the document Magánszemélyek/Hitelkártyák page in the website www.raiffeisen.hu.

3. Setting the PIN2 code

You can read more about the PIN2 code here: **Card purchases over the internet with strong customer authentication**

You can access the PIN2 application from the menu in the DirektNet header, via Cards/PIN2 code:

The screenshot shows the Raiffeisen Bank DirektNet user interface. At the top, there is a navigation bar with the Raiffeisen Bank logo, the text 'DirektNet', and a 'Go to myRaiffeisen portal' button. Below this, the user's name 'User: dr. Makó Péter' and customer name 'Customer: dr. Makó Péter' are displayed, along with a notification count of 259 and links for 'Offers, informations', 'Settings', and 'Logout'. A main navigation menu includes 'ACCOUNT INFORMATION', 'TRANSFER, CONVERSION', 'DEPOSIT', 'CARD', 'SECURITIES', 'ONLINE LOAN', and 'ADMINISTRATION'. The 'CARD' menu is expanded, showing options like 'Card limits', 'PIN 2 code' (highlighted with a red box), 'Creditcard Application', and 'Bankcard complaint'. To the right of this menu, the heading 'Bankcard services' is visible, followed by a note: 'You can send us your comments or complaints related to you existing bankcard here by [completing the form](#).' At the bottom left, there is a contact information section for 'Raiffeisen Direkt' with the phone number '+36 80 488 588' and a note about 24-hour customer service.

VI. SECURITIES—INTERNET BROKERING

Why use this service?

- you can be up-to-date on your investments,
- you can give orders at favourable rates,
- you can conveniently access your investment account via internet from anywhere in the world,
- you can transfer funds between your own accounts, as well as launch securities buy and sell transactions,
- you can get notices on the status of your securities orders,
- it is safe, as before an order is executed, you are expected to sign and validate it with a one-time password.

How can I apply for Internet Brokering if I already have a securities account?

 Private

If you are a private banking Customer, please contact your personal advisor for the purpose of applying for the Internet Brokering service and opening a securities account.

In case you already have DirektNet access, you will not need any new identifier or password. You can use the service with your existing codes, provided that you apply for it through Raiffeisen Bank's call centre at phone number 06-80-488-588, or in-person at any branch of the Bank.

If you do not have DirektNet access yet, you can apply for access by completing the application form available among Forms. Please send the Form to the following address: Raiffeisen Bank Zrt. Budapest Pf. 1700.

If you prefer to do the application in-person, please visit the Raiffeisen branch that is closest to you.

In order to avoid waiting, please make an appointment in advance: [Click here to make an appointment.](#)

Documents required for the application: ID card, address card.

The Bank sets the service in the system, of which notice is sent to you in SMS.

How can I apply for Internet Brokering if I do NOT have a Raiffeisen securities account?

Please visit the Raiffeisen branch that is closest to you.

In order to avoid waiting, please make an appointment in advance: [Click here to make an appointment.](#)

Documents required for the opening of the account: ID card, address card, tax card.

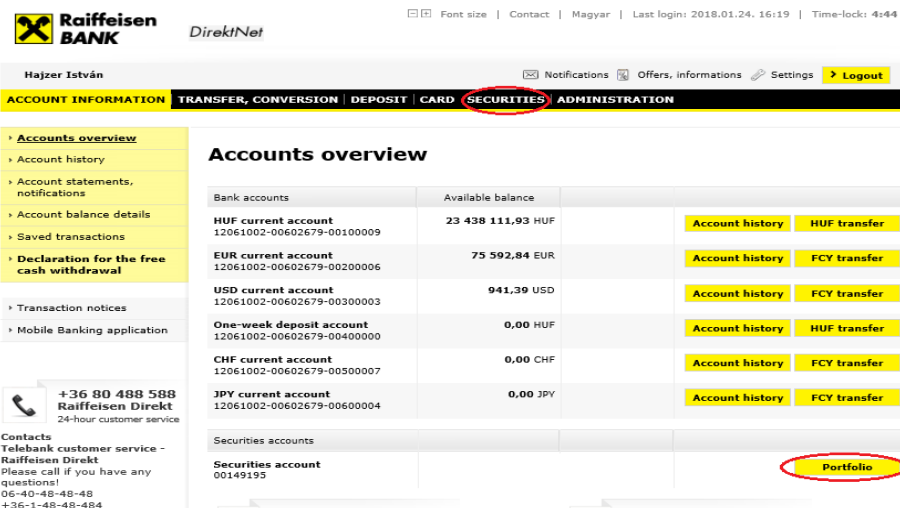

Simultaneously with the current account opening, apply for DirektNet internet banking and Internet Brokering access.

For the activation of DirektNet, a one-time activation code is sent to you in SMS, to the mobile phone number you have provided.

How can I access the Internet Brokering service?

To access the Internet Brokering service, after login select from the list displayed in the [Accounts overview](#) the [Portfolio](#) button of [Securities account](#), or click on the [Securities](#) tab in the upper menu bar. If you have several securities accounts, more than one such accounts can be shown here.

› Transaction log	Transaction log: You can get information on the data of the transactions performed in your securities account and their current status.
› Retail Government Bond Subscription	Retail Government Bond Subscription: You can subscribe government securities.
› Buy bonds or government securities	Buy and sale of bonds and government securities: Raiffeisen Bank is allowed to trade with bonds issued by itself, as well as with government securities.
› Sell bonds or government securities	Investment funds: Besides the investment fund units of Raiffeisen Investment Fund Management Zrt. and Raiffeisen Capital Management, you can also buy and sell all other (non-Raiffeisen) fund units traded by Raiffeisen Bank.
› Investment funds	
› Exchange trading	
› Transfer order	
› Investment notification	

In the **Exchange trading** menu options you can buy and sell securities admitted to trading on the Budapest Stock Exchange.

Transfer order: It enables you to move cash from your securities account to your bank accounts. Please initiate any transaction in the opposite direction in the transfer screen of the DirektNet portal.

1. What can I see in the portfolio statement?

In the **Portfolio statement** you can view the current balance of your securities account.

In order to ensure the transparency of your securities portfolio, the statement can be viewed in the following arrangement:

- Main account
 - Bonds, government securities
 - Investment funds
 - Securities traded on the BSE
 - Other securities
 - Client account
- Long-Term Investment Accounts
 - Bonds, government securities
 - Investment funds
 - Securities traded on the BSE
 - Other securities

- Client account
- Regular Investment Program
 - Investment funds
 - Client account
- Stability Savings Account
 - Bonds, government securities
 - Client account

Of course only those groups of securities are displayed which you currently hold. Items registered in foreign currencies are converted into HUF at the official MNB exchange rates.

In the case of securities, you can view the following data in the portfolio statement:

Main account - total value: 1 868 536 560 HUF

- Bonds, Government securities								total value: 438 133 099 HUF
Stock name	Balance	Quantity available for sale	Recording unit	Foreign currency	Last transaction time	Rate	Market value	
2020/A Magyar Államkötvény	205,370,000	205,370,000	NE	HUF	2012.06.20.	100	205,370,000 HUF	

Stock name: Name of the security.

Balance: The current balance of the given security in the given account.

Quantity available for sale: Quantity of the security registered in your account.

Recording unit: Quantity unit in which the given security is recorded (for example in the case of bonds nominal value (NV), and in the case of equities and investment funds the number of pieces (PCS).

Foreign currency: The currency in which the security is issued.

Last transaction time: Date of the last transaction carried out with the given security.

Rate: Last available price of the security.

Market value: Total value of the given security, calculated on the basis of its available price and quantity.

Sell and Buy buttons: Using these buttons you can initiate transactions.

Besides the main account of the Raiffeisen securities account, you can launch orders in other securities accounts (e.g. long-term investment securities account) as well.

What is the use of the "Securities details" function?

You can reach the [Securities details](#) function by pressing the button, clicking on the line of the given security. You can filter for account type and securities, and always the data of securities meeting the filter criteria will be displayed in the list.

Securities details

Account type:		Értékpapír forgalmi számla					
Securities:		2017/A Magyar Államkötvény					
Last transaction time	Balance per purchase	Recording unit	Buy date	Buy value (foreign currency)	Purchase value (HUF)	Current rate (foreign currency)	Current value (HUF)
2017.10.25.	100 000	NE	2017.10.25.	106.7913	106 791 HUF	0 HUF	0 HUF

In the securities details function you can view the following data:

Last transaction time: It shows the last time when you made any transaction in respect of the given securities acquisition.

Balance per purchase: Quantity still available from the given acquisition.

Recording unit: Quantity unit in which the given security is recorded (for example in the case of bonds nominal value (NV), and in the case of equities and investment funds the number of pieces (PCS).

Buy date: The date on which the security was admitted to the portfolio.

Buy value (foreign currency): Price of the security at the time of the acquisition.

Purchase value (HUF): Acquisition price of the security, multiplied by quantity.

Current rate (foreign currency): Last available price of the security.

Current value (HUF): Total value, calculated on the basis of the last available price of the security.

2. What is the use of the transaction log?

Transaction log

You can reach the transaction log by selecting the menu option on the left. By default, all transactions are displayed in the transaction log that belong to the given portfolio, in a descending order according to the input date.

After display, you can update the transaction log by clicking on the Refresh button. The list appearing in the screen will not be updated automatically. If you view the transaction log, then start a new order, the new order will be displayed in the transaction log only after you press the [Refresh](#) button.

Transaction log

ATTENTION!
 The "default" search (performed with blank parameters) results the transactions of the last 2 months. To display the transactions over a longer period, please set the appropriate parameters.

> Set filter
> Refresh

Transaction log view: + own view

Cut off time	Stock name	Amount Recording unit	Transaction type / Transaction direction	Status	Transaction rate	Transaction amount
2018.03.06.	Raif.Kamat Prémium Rv Ktv Alap	1 000 DB	Fund transaction Selling	Under execution	0	0 HUF

You can view the following information in the transaction log:

Cut off time: The date on which the transaction was concluded.

Stock name: Name of the security.

Amount recording unit: The quantity sold or bought.

Registration unit: Quantity unit in which the given security is recorded (for example in the case of bonds nominal value (NV), and in the case of equities and investment funds the number of pieces (PCS)).

Transaction type / Transaction Direction: Type of the transaction / Direction of the order (sale or purchase).

Status: Current status of the order.

Transaction rate: Price valid at the time of conclusion of the deal, at which the transaction is fulfilled.

Transaction amount: Total amount of the order.

By clicking on a transaction, you can view the details of the orders represented by each line in the screen ([Transaction details](#)).

How can I use filters in the transaction log?

If you click on the button of the [Transaction log](#), the filter criteria that you can use will

+ own view appear—by setting these, you can narrow down the transactions to be displayed in the transaction log.

If you set filter criteria that you wish to use in the future as well, check the line and you can save the filter criteria you have identified.

Transaction log

 **ATTENTION!**
The "default" search (performed with blank parameters) results the transactions of the last 2 months. To display the transactions over a longer period, please set the appropriate parameters.

Transaction log view:

Time interval: Last: or from to

Transaction type:

Based on the type of the security:

Selected Deal-Account type:

Amount: min.: max.:

Save view:

The following filter criteria can be set:

Time interval: you can select the length of the time period that you want to display. You can inquire the transaction log for one year in retrospect at maximum.

Transaction type: you can select the deal types to be displayed.

Based on the type of the security: you can select the security types to be displayed.

Selected Deal-Account type: only the transactions that occurred in the given account type will be displayed.

Amount: you can specify the number of securities.

The list of your saved filters is displayed in the line "Transaction log view", in the dropdown menu. You can activate the given filter by clicking on the relevant line.

You can edit saved filters by clicking on the button.

To add a new filter, click on the button.

Save view: Name:

What is the use of the transaction details function?

In the transaction details function you can view the details of a given transaction. Here you can see details supplementary to the data included in the transaction log and characteristic of the given transaction type.

The data in the screen depend on the type of the transaction displayed.

3. Retail Government Bond Subscription

The user manual for the Raiffeisen Online Broker related to retail government bond subscription is available [here](#).

4. How can I buy bonds or government securities?

The user manual for the Raiffeisen Online Broker regarding buying bonds or government securities is available [here](#).

5. How can I sell bonds or government securities?

The user manual for the Raiffeisen Online Broker regarding selling bonds or government securities is available [here](#).

6. How can I buy and sell investment fund units?

The user manual for the Raiffeisen Online Broker related to the purchase and sale of investment units is available [here](#).

7. Exchange trading

For the Raiffeisen Online Broker user manual about exchange trading please click [here](#).

8. How can I transfer cash from the client account belonging to my securities account to a bank account?

› Portfolio statement
› Transaction log
› Retail Government Bond Subscription
› Buy bonds or government securities
› Sell bonds or government securities
› Investment funds
› Exchange trading
› Transfer order
› Investment notification

Select the Transfer order menu option on the left to transfer cash from the client account belonging to your securities account to your bank account.

If you click on the menu option, the transfer order input screen appears.

Please take note that you can give a transfer order to your own account only, you cannot identify the bank account of another customer of ours or an account kept at another bank as the target account.

Data of the transfer are as follows:

Source account: Select the account from which you want to make the transfer.

Currency: Specify the currency in which you want to make the transfer. If the currency is selected, the current balance will appear.

Balance in source account: This is the amount from which you can initiate a transfer.

To give a transfer order in a specific currency, you should have a positive balance in that currency in your client account belonging to your securities account, and should also have an existing bank account in the relevant currency attached to your identifier in the Bank's account-keeping system.

Source account type: Through Internet Brokering you can transfer only from a cash account.

Target account: The amount of the transfer will be credited to this account.

Target account type: Through Internet Brokering you can transfer only to a current account.

Amount of transfer: Enter the amount you want to transfer to your bank account.

Trade date: The date on which the transfer will take place.

Note: You can provide a narrative for the transfer in this field.

Transfer order

Please note that you can only specify your own bank account as a target account. If you wish to make a transfer to another account, you can, of course, do so from your own bank account.

Source account:	12010381-99000164-58000006 -- Main account
Foreign currency:	HUF
Balance of liability account:	9,797,320 HUF
Source account type:	Main account - Magyar forint - Customer account
Target account:	Please select the source account!
Target account type:	Normal bank account
Transfer amount:	<input type="text"/> HUF
Value Date:	2022 . 11 . 29
Comment:	<input type="text"/>

< Cancel

> Next

Click the **Cancel** button to stop, or click the **Next** button to initiate the transfer. Then the **transfer confirmation** screen appears.

Attention: The trade date may differ from the date seen in the previous screen in case the cut-off time has expired on the given day. In such case the transaction will be admitted for processing on the next banking day.

If you find that the data of the transaction are OK, by entering the Password you can confirm your intention to transfer.

Confirmation of transfer order

You have set the following parameters - please verify. If they are correct, please confirm transaction.

Source account: 12010721-99009132-58000006

Source account type: Cash account for the use of investment services

Target account: 12010721-01553745-00100007

Target account type: Normal bank account

Transfer amount: 1,000 HUF

Value Date: 2023.10.05.

Comment:

Transaction id: BIKOZP45008581

< Cancel

> **Modify**

> **Confirm**

By clicking on the **Modify** button without entering your password, you can return to the input screen, and modify the data of the transfer.

Click the **Cancel** button to stop the transfer.

Click the **Confirm** button to approve the transfer; the **acknowledgement of receipt screen** appears, informing you that your order has been admitted to the Bank's system.

Acknowledgement of transfer order

Your order has been accepted for processing. Please note, that the acceptance of your order does not automatically mean the execution of it. You can view information on the execution of your order in your inbox or the transaction log. The details of the order are as follows:

Source account: 12010381-99000164-58000006

Source account type: Cash account for the use of investment services

Target account: 12001008-00183930-00100007

Target account type: Normal bank account

Transfer amount: 100,000 HUF

Value Date: 2022.11.29.

Comment:

Transaction id: BIKOZP42064796

> Ok

 Print

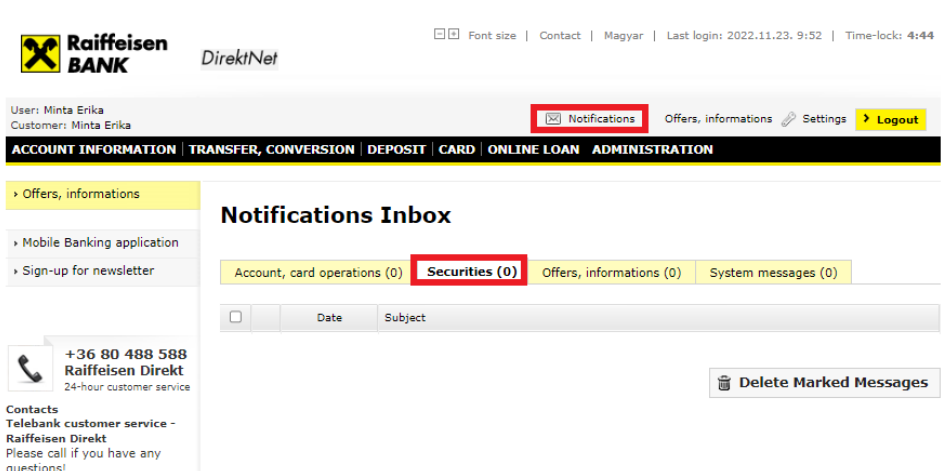

Please read in each case the notice on the top of the screen, because it includes important information regarding the transaction and its processing.

Click on the [Print](#) button to print the transaction you have initiated.

Click on the [OK](#) button to return to the portfolio statement.

You can monitor the status of your transaction in the transaction log, and we shall also send you [Portal notices](#) on any changes in status.

9. Investment notification

The screenshot shows the Raiffeisen DirektNet user interface. At the top, there is a navigation bar with the Raiffeisen BANK logo, the text 'DirektNet', and utility links for 'Font size', 'Contact', 'Magyar', 'Last login: 2022.11.23. 9:52', and 'Time-lock: 4:44'. Below this, the user's name 'Minta Erika' and customer ID are displayed. A 'Notifications' icon is highlighted with a red box. A main navigation bar contains links for 'ACCOUNT INFORMATION', 'TRANSFER, CONVERSION', 'DEPOSIT', 'CARD', 'ONLINE LOAN', and 'ADMINISTRATION'. On the left, there is a sidebar with 'Offers, informations' (highlighted), 'Mobile Banking application', and 'Sign-up for newsletter'. The main content area is titled 'Notifications Inbox' and features a tabbed interface with 'Account, card operations (0)', 'Securities (0)' (highlighted in red), 'Offers, informations (0)', and 'System messages (0)'. Below the tabs is a table with columns for 'Date' and 'Subject'. A 'Delete Marked Messages' button is located at the bottom right of the inbox area. A contact information box on the left provides the phone number '+36 80 488 588 Raiffeisen Direkt' and mentions '24-hour customer service'.

On any status changes of your securities transactions initiated through Internet Brokering, you will get a message. These messages are updated only in the course of your login!

You can view the content of messages by clicking on the [Notifications](#) icon in the top of the screen. Here select the [Securities](#) tab. Then the list of messages available under [Securities notices](#) will appear.

Online Personal Loan

By clicking on the [Online Loan / Online Personal Loan](#) menu item, you can quickly and easily apply for an online personal loan.

For the detailed terms and conditions, please refer to the document "Kölcsönigénylés minimális feltételei" in the Magánszemélyek/ Személyi Kölcsön page in the website www.raiffeisen.hu.

Online Overdraft

By clicking on the [Online Loan / Online Overdraft](#) menu item, you can quickly and easily apply for an online overdraft.

For the detailed terms and conditions, please refer to the document "Kölcsönigénylés minimális feltételei" in the Magánszemélyek/ Folyósámlahitel page in the website www.raiffeisen.hu.

Online Credit Card

By clicking on the [Online Loan / Online Credit Card](#) menu item, you can quickly and easily apply for an online credit card, which allows you to pay comfortably and securely both domestically, abroad, and online.

For the detailed terms and conditions, please refer to the document Magánszemélyek/ Hitelkártyák page in the website www.raiffeisen.hu.

VIII. ADMINISTRATION

1. Settings

Update ID and address card data

Under the [Administration / Settings](#) menu, clicking the [Update correspondence address](#) button provides information about the tasks related to online modifiable data. Online modifiable data categories:

- Notification / Mailing address
- Permanent address
- Document modification
- Email address

Update e-mail address

Under the [Administration/Settings](#) menu, clicking the [Update e-mail address](#) button you can modify your e-mail address.

This function is not accessible for our private banking customers. If you want to modify your e-mail address, please dial phone number [06-80-488-588](#), or visit any of our branches.

Telephone number for SMS signature

In case you want to receive the SMS passwords necessary to approve transfers to another mobile phone number, you can select it under the menu [Administration/Settings](#) from the field [Telephone number for SMS signature](#). When starting the next transaction, you will receive your SMS password already to the modified number.

This field only includes the telephone numbers that you have provided previously and are recorded in the Bank's system.

Telephone number for mobile notification

By requesting the service, you will get information in SMS on your successful and unsuccessful attempts to log in to DirektNet. This way you can keep track exactly of your DirektNet use. If you request the service, you can identify the fee settlement account, which you can select from the dropdown menu, as well as which telephone number you want to receive the SMS message to.

To turn on the service, under the menu **Administration/Settings** click on the heading **Telephone number for mobile notification**. In the form, at the **I wish to receive SMS notification of DirektNet login** field select yes.

After entering the data, click on the **Save** button. You can also cancel the service here, to do so select **no** for the **I wish to receive SMS notification** field, then click on the **Save** button.

If you do not want to change your data, click the **Back** button to return to the previous page.

Change password

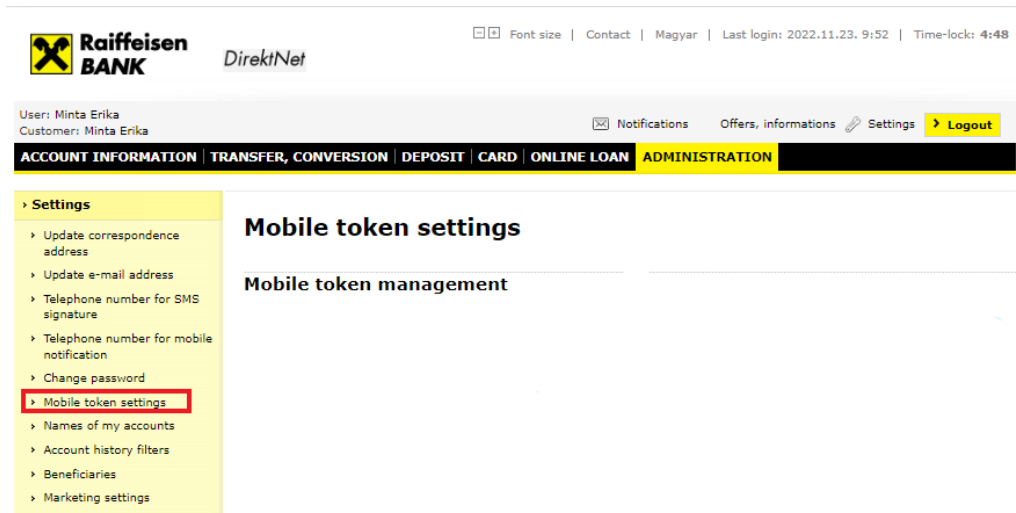

Under the **Administration/Settings** menu click on the heading **Change password**. Enter your old password, then type in your desired new password twice. When you are ready, click on the Save button. If you do not want to change anything, click the Cancel button to return to the previous page.

Mobile Token settings

Content of the Mobile Token management menu

The Bank is entitled to unilaterally change the transaction limit set by the Customer, or is entitled to introduce a Mobile token limit if it detects a suspicion of a fraudulent payment transaction or abuse and hopes to protect the customer's or bank's interest from this measure.

Under the menu option **Mobile Token management** you can see your devices activated so far, manage your rights of access, and set Mobile Token as your default authentication device.

The screenshot shows the Raiffeisen DirektNet interface. At the top, there's a navigation bar with the Raiffeisen Bank logo and 'DirektNet' text. Below that, user information is displayed: 'User: Minta Erika' and 'Customer: Minta Erika'. There are links for 'Notifications', 'Offers, informations', 'Settings', and a 'Logout' button. A main navigation bar contains 'ACCOUNT INFORMATION', 'TRANSFER, CONVERSION', 'DEPOSIT', 'CARD', 'ONLINE LOAN', and 'ADMINISTRATION'. The 'Settings' menu is expanded, showing options like 'Update correspondence address', 'Update e-mail address', 'Telephone number for SMS signature', 'Telephone number for mobile notification', 'Change password', 'Mobile token settings' (highlighted with a red box), 'Names of my accounts', 'Account history filters', 'Beneficiaries', and 'Marketing settings'. The main content area shows 'Mobile token settings' and 'Mobile token management'.

In the Administration menu of the DirektNet internet banking platform, under the new menu option **Mobile Token management** you can see your devices activated so far, manage your rights of access, and set Mobile Token as your default device.

If you do not want to use this authentication method, deselect the default status of the Mobile Token under this menu option.

In such case you will be able to log in with your Password and a one-time SMS code. And you will be able to authenticate your orders in the previous ways; however, optionally you may choose Mobile Token as well.

Below the menu option, you can see your different Mobile Token devices in a table format, arranged according to their status. The status of a device can be either **Active** or **Suspended**. You may suspend, reactivate or delete your Mobile Token devices here as well as in the Mobile App.

This menu option is accessible even if you do not have a Mobile Token, of which you are specifically informed.

Names of my accounts

You can find more information [here](#) about modifying the names of your accounts.

Account history filters

You can find more information [here](#) about modifying the views of the account history.

Beneficiaries

You can save the data of your beneficiaries if you want to, which will enable you to complete the data very quickly when entering an order.

You can find the Beneficiaries menu option in two places:

- in the **Transfer, conversion** page, in the menu on the right,
- and in the **Administration** page.

If you click on the **Add New Beneficiary** button, a form will appear, completing which you can record your new beneficiaries. In this page you can modify as well as delete your partners recorded previously.

Manage Beneficiaries

* Required fields

Beneficiary short name: *	<input style="width: 95%;" type="text"/>	?
Beneficiary: *	<input checked="" type="radio"/> by account number <input type="radio"/> by e-mail address <input type="radio"/> by phone Number <input type="radio"/> by tax identification number <input type="radio"/> by tax number	?
Type of beneficiary account: *	<input type="radio"/> Domestic in Hungarian forint <input type="radio"/> Domestic in foreign currency <input type="radio"/> Cross-border in any currency <input type="radio"/> SEPA	?

← Cancel
> Add

You can save the data of a new beneficiary in the transaction recording form as well. If you mark the Save beneficiary box when entering the order, the beneficiary will be saved when the transaction is signed and sent to the Bank.

Adding a new domestic beneficiary

You can create a new domestic beneficiary on the Add new beneficiary page, by marking the **Domestic in Hungarian forint** option.

Short name: The name you enter in this field will appear in the "list of existing beneficiaries".

Beneficiary name: The full, official name of the beneficiary to be shown in the order.

Account number: GIRO account number of the beneficiary of the transfer. This sequence may consist of 2x8 or 3x8 digits.

Adding a new domestic foreign currency beneficiary

You can create a new domestic foreign currency beneficiary on the Add new beneficiary page, by marking the **Domestic in foreign currency** option.

Short name: The name you enter in this field will appear in the "list of existing beneficiaries".

Beneficiary name: The full, official name of the beneficiary to be shown in the order.

Raiffeisen Bank customer: Please check this box if your partner also keeps their account at Raiffeisen Bank.

Account number: Account number of the beneficiary.

Bank's name: Name of the beneficiary's account-keeping bank.

Bank's address: Full address of the beneficiary's account-keeping bank.

SWIFT code: International identification code serving to identify banks. This field must be completed on a mandatory basis.

Manage Beneficiaries

* Required fields

Beneficiary short name: *	<input type="text"/>	?
Beneficiary: *	<input checked="" type="radio"/> by account number <input type="radio"/> by e-mail address <input type="radio"/> by phone Number <input type="radio"/> by tax identification number <input type="radio"/> by tax number	?
Type of beneficiary account: *	<input type="radio"/> Domestic in Hungarian forint <input checked="" type="radio"/> Domestic in foreign currency <input type="radio"/> Cross-border in any currency <input type="radio"/> SEPA	?
Beneficiary's name: *	<input type="text"/>	?
Beneficiary's address		
first row:	<input type="text"/>	?
second row:	<input type="text"/>	
Beneficiary's account: *	<input type="radio"/> Non IBAN format <input type="radio"/> IBAN format <input type="radio"/> Raiffeisen Customer	?
SWIFT code: *	<input type="text"/>	?
Bank name: *	<input type="text"/>	?
Bank address: *	<input type="text"/>	?

Adding a new foreign beneficiary

You can create a new cross-border beneficiary on the Add new beneficiary page, by marking the **Cross-border in any currency** option.

Short name: The name you enter in this field will appear in the "list of existing beneficiaries".

Beneficiary name: The full, official name of the beneficiary to be shown in the order.

Account number: Account number of the beneficiary.

SWIFT code: The SWIFT code (also referred to as "SWIFT BIC" or "BIC") is an international identification code consisting of 8 or 11 characters that serves to identify the bank of the beneficiary. For example the SWIFT code of Raiffeisen Bank Hungary is: UBRTHUHBXXX.

Bank's name: Name of the beneficiary's account-keeping bank.

Bank's address: Full address of the beneficiary's account-keeping bank.

Target country: Country of the beneficiary's account-keeping bank.

Adding a new SEPA beneficiary

You can create a new SEPA beneficiary on the Add new beneficiary page, by marking the **SEPA** option.

Short name: The name you enter in this field will appear in the "list of existing beneficiaries".

Beneficiary name: The full, official name of the beneficiary to be shown in the order.

Account number: Account number of the beneficiary.

Type of beneficiary: Identify the type of the beneficiary.

Marketing settings

Under the **Administration / Settings** menu, by clicking on the **Marketing Settings** subtitle, you can configure the display of personalized offers in the "Offers, informations" folder and in the pop-up window on DirektNet.

Unsubscribe from notifications related to instant payment

Under the **Administration / Settings** menu, by clicking on the **Unsubscribe from notifications related to instant payment** subtitle, you can subscribe or unsubscribe to notifications regarding completed and pending instant payment transactions.

Unsubscribe from notifications related to request to pay transactions

Under the **Administration / Settings** menu, by clicking on the **Unsubscribe from notifications related to request to pay transactions** subtitle, you can subscribe or unsubscribe to notifications regarding incoming payment requests and notifications received about sent completed payment requests.

2. Requests

Mobile Banking service

In the **Administration/Requests** menu under **Mobile Banking service request**. Raiffeisen Mobile Banking offers a convenient and simple solution for the continuous monitoring of your financial transactions.

With our Mobile Banking service—in the form of SMS messages—you can get prompt and exact information on:

To request our SMS service, complete the following form:

Enter your Hungarian mobile phone number, then select the language to be used and identify your fee settlement account.

If you want to use our **Card Info service**, enter the number of your card, which you may as well name for your own use.

If you request **Account Info service**, select the account on whose cash movements you want to be notified in the form of SMS.

After entering the data, click on the **Next** button.

You can check the data of the request in the new window which appears. If the data are correct, click on the **Send** button so that the request for the service will be registered in our system. If you want to modify the data, click on the **Modify request** button to return to the data input page.

Creditcard application

You can find more information **here** about applying for a credit card.

Card limits

You can find more information **here** about modifying the limits of your cards.

Request certificates

You can find more information **here** about the electronic certificate requests.

Online Personal Loan

You can find more information **here** about the online personal loan.

Online Overdraft

You can find more information **here** about the online current account credit.

Online Credit Card

You can find more information [here](#) about applying for a credit card online.

Transaction limits

The Bank sets basic limits for all users on certain forint and foreign currency transactions initiated through online channels (internet banking and mobile application). Users can check and modify these limits free of charge in the DirektNet under [Account Information / Transaction limits](#) or [Administration / Transaction limits](#). You can find more information about setting your transfer limits [here](#).

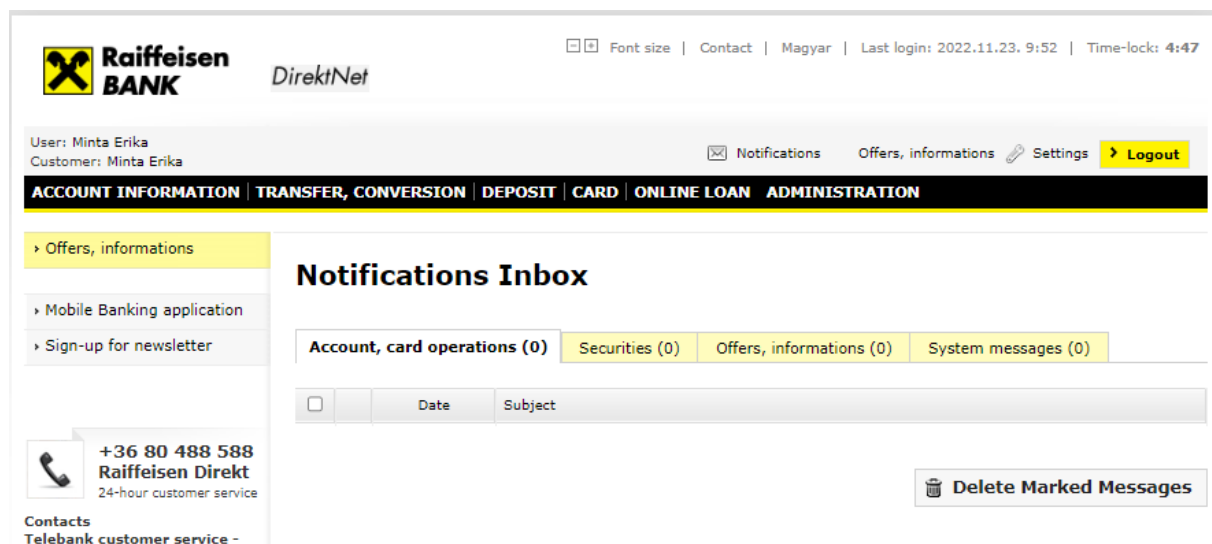

3. Other settings

What is the Notifications menu option, and how can I manage it?

After login, in the [Notifications](#) field of the main menu the system informs you if you have received a message from the Bank on successful or unsuccessful transactions. In the case of unread messages, the Notifications field is highlighted with a colour, and in parentheses you can see the number of messages received.

If you click on the notifications link, a window appears in which you can see the messages received, arranged by date. You can determine how many notices you want to display per page.

By clicking on the [Delete marked messages](#) button, you can delete the marked items.

The screenshot shows the Raiffeisen Bank DirektNet interface. At the top, there is a header with the bank logo, the name 'DirektNet', and utility links like 'Font size', 'Contact', 'Magyar', 'Last login: 2022.11.23. 9:52', and 'Time-lock: 4:47'. Below the header, the user's name 'Minta Erika' and customer name are displayed, along with navigation links for 'Notifications', 'Offers, informations', 'Settings', and 'Logout'. A main menu bar contains 'ACCOUNT INFORMATION', 'TRANSFER, CONVERSION', 'DEPOSIT', 'CARD', 'ONLINE LOAN', and 'ADMINISTRATION'. The 'Offers, informations' menu item is highlighted. On the left, there are links for 'Mobile Banking application' and 'Sign-up for newsletter'. A contact card for Raiffeisen Direkt is shown with the phone number +36 80 488 588. The main content area is titled 'Notifications Inbox' and features a filter bar with categories: 'Account, card operations (0)', 'Securities (0)', 'Offers, informations (0)', and 'System messages (0)'. Below the filter bar is a table with columns for 'Date' and 'Subject'. A 'Delete Marked Messages' button is located at the bottom right of the inbox area.

IX. SECURITY

Security information

Internet banking and payment operates at a high level of security, nevertheless it is advisable for customers to get prepared how to avoid fraud attempts and abuses that might cause loss to them.

Virus information

Get safe online

Data security information

Data protection

What can you do to protect your data?

- Distrust any e-mail/SMS or telephone call that asks you to check, send or hand over your personal banking identification data! Please take note that Raiffeisen Bank does not send e-mails to its customers with links pointing at login sites used for internet banking, and never asks for their identifiers in e-mail. Please never respond to such requests, but notify our Raiffeisen Direkt call centre immediately!
- Our call centre staff may ask you only to provide your internet banking ID, but not your password. If you find a call to be suspicious, rather hang up or break the telephone connection, then call the familiar telephone number of the call centre, published in the Bank's website, to check the veracity of the call.
- The Bank does not use voice recognition, so please never provide your personal banking identification data over the phone if someone asks for your data under such pretext.
- Enter your internet banking identifier and password only in the login site accessible from the www.raiffeisen.hu address written by yourself in the URL bar of your browser, and do not use any other links!
- When paying with your card online, provide your card data only to real online service providers and web stores! When making a payment, do not save your card data in the site of the web store.
- Protect your computer with a firewall and regularly updated antivirus programs. Cybercriminals obtain your important identifiers and passwords using so-called Trojan malware that install themselves on your computer unnoticed.
- Do not install applications of unknown origin or that are unknown to you on your telephone or computer, and never permit remote access for unauthorised persons to your equipment.

If you have already provided your internet banking identifiers or card data in a platform suspicious of abuse, ban these as soon as possible through our call centre at phone number **+36 80 488 588**.

If you lose a mobile device in which you have stored your data necessary for internet banking or your card data, we recommend you to ban these as soon as possible through our call centre at phone number **+36 80 488 588**.

Protect your data!

Recommendations for the security of your computer

Download available upgrades and fixing patches developed for the operating system and browser you use (we recommend you to replace your Windows XP or Windows 7 operating system, because these are no longer supported, therefore exposed to threats), and install the same. (Activate the automatic update function, if possible!)

Adjust the data security settings of your browser to a high-degree security level, if possible, so that it will warn you during use before opening any harmful content.

Use of antivirus programs

Use an antivirus program, and update it regularly. It is recommended to use a computer equipped with antivirus software having up-to-date virus descriptions, and use the automatic update function! Do regular virus checks by means of your software!

We recommend the following antivirus software:

www.avast.com

www.kaspersky.hu

www.nod32.hu

www.mcafee.com

www.symantec.com

(Any and all liability of the Bank related to the use of antivirus software is excluded. All obligations and responsibility arising from the use of the software program shall be borne by the User.)

Use of firewalls

Programs including hidden programs, harmful programs camouflaging themselves as useful applications, and programs including virus and spy software may be installed on your computer from the internet (e.g. free software downloads). These programs and their developers are able to access non-public, even secret data stored in your computer. So-called Trojan programs capable of forwarding the data typed in through your keyboard (IDs, passwords, etc.) to unauthorised parties may as well be installed on your computer. Therefore—besides using an antivirus program—you are recommended to install firewall software as well in order to prevent the installation of such programs on your computer. It is true of firewall protection as well that it can function optimally only if the program is continuously updated, at the frequency recommended by the manufacturer.

Install firewall software, and update it regularly. We recommend using the following firewall software:

www.zonealarm.com

www.kaspersky.hu

www.pandasoftware.com

www.symantec.com

www.sygate.com

www.agnitum.com

(Any and all liability of the Bank related to the use of firewall software is excluded. All obligations and responsibility arising from the use of the software shall be borne by the User.)

Use a safe internet connection

Never bank on a public Wi-Fi network!

If you connect to the internet via a router, and you can change its settings, it is reasonable to take the steps described in the manual of the equipment, depending on the equipment type.

Change the default password of the router, and switch on the built-in firewall function (if it has any). It is recommended to regularly update the firmware ensuring the operation of the router.

If you use a wireless router, further settings are also needed. Switch on the encryption of the connection, and apply WPA/WPA2 encryption. The password should include lowercase and

uppercase letters, numbers and special characters, and should be 16 characters long if possible.

It is a security-enhancing factor if you use a fixed IP address, activate MAC filtering, and permit access to the router for your own computer only.

Security recommendations concerning mobile devices

Mobile devices—smartphones, tablets and any other device connected to the internet—are exposed to abuse. Therefore we recommend the following in the interest of the security of your mobile devices:

- Use a sufficiently strong PIN code or biometric identifier to unlock your mobile device, and set the automatic lock screen function.
- Do not store any personal data (card number, PIN code, bank account number, login ID/password) on your device or on the memory expansion card either.
- Install applications only from official sources (Google Play, Apple Appstore, Windows Market) on your device.
- Do not install applications of unknown origin or that are unknown to you on your telephone or computer, and never permit remote access for unauthorised persons to your equipment.
- Do not use rooted or jailbroken devices, because the manufacturer's defence mechanism is eliminated with the breaking.
- It is recommended to use the built-in protection at a high level, and use antivirus software downloaded from an application appropriate for your mobile device.
- If it is supported by the operating system of your device, we recommend encrypting the data stored in your hard drives.

Protection of personal codes and card data

Take care of your personal codes and card data. **Do not tell anyone your internet banking activation code** received from the Bank, or your password chosen after the activation of the service! Do not make any notes (even on your computer or mobile devices) that—if acquired by unauthorised parties—would make it possible for someone else to log in to the system in your name!

Preferably **choose online card payment in web stores** where you have to provide card data **through some bank's site**. This way the data will get to the Bank via a safe connection, and the operator of the web store will not get to know these.

It is recommended that you **check whether the web store is "real" or not**. It is suspicious if there is no data protection policy or general terms & conditions in the website (covering the

protection of personal data, and determining the major terms of the purchase, e.g. payment, shipping, complaints).

Choose a suitable password

Make an effort in each case to provide a password that cannot be linked to you, i.e. cannot be simply decoded (e.g. do not choose, if possible, the name of your favourite pet or a simple ascending series of numbers as a password). Remembering a strong password is harder, but it provides a larger degree of security. When determining the password to be used for internet banking, it is mandatory to use both lowercase and uppercase letters, and numbers, and special characters are recommended with a view for greater security. It is recommended to use biometric identification for your mobile device, if it is supported by the device, and furthermore to use secure password storage software to remember passwords. Never tell your password to third parties, or to a financial service provider. **The Bank will never ask you to give us your password!** Never write down your password, and do not save it to your computer or mobile device, and never store the passwords necessary for internet banking in the browser.

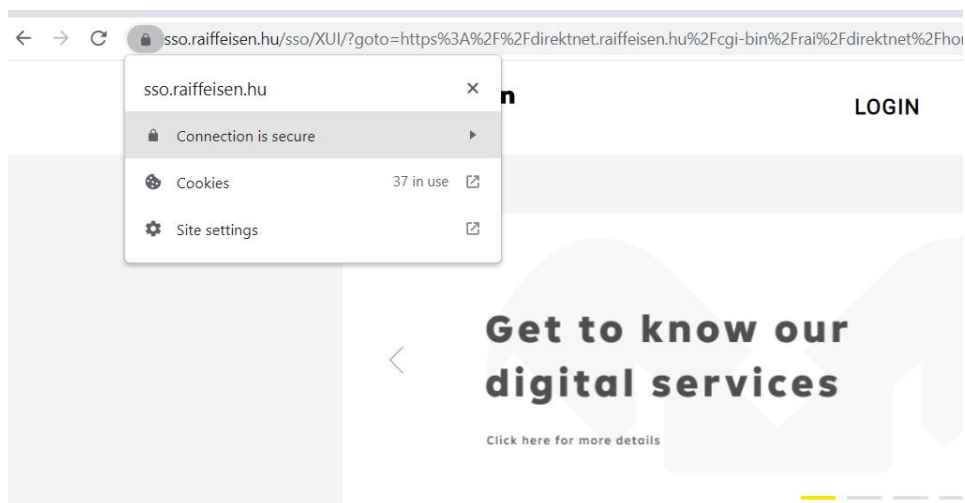

Safer internet banking

Before you start banking, it is worth taking some steps that enhance security.

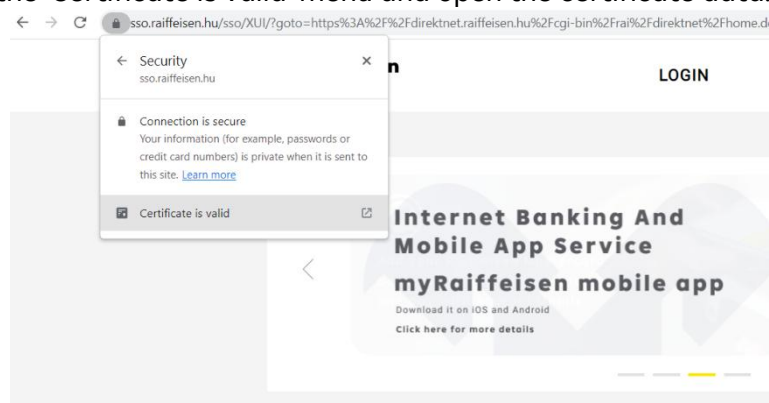

- Always open a new browser for banking.
- After opening the browser, enter the Bank's URL (www.raiffeisen.hu) manually in each case. **Never click on a link provided in an e-mail or in another website**, because you might become the victim of a phishing attempt.
- Observe the rules concerning passwords.
- Check the authenticity and coding of the website.

The basic condition for safe internet banking is to make sure that you are really trying to login on the Bank's login interface. You can check this as follows:

1. After loading the login page, click on the padlock in front of the title bar, then click to the 'Connection is secure' menu item.

2. Then select the 'Certificate is valid' menu and open the certificate data:

3. In the 'Certificate viewer', the parts that are framed by red show that the page is owned by Raiffeisen Bank and that the certificate is valid.

Certificate Viewer: sso.raiffeisen.hu ×

General Details

- Do not allow your internet browser to remember your password! If your internet browser offers you to automatically remember your password (which means that the browser will save the password belonging to the given website, therefore next time you do not have to type it in again), do not permit your password to be saved in the login page of the internet banking platform!
- Do not exit the internet banking platform by closing the browser, but through the Logout button!
- We furthermore advise you against doing online banking via public internet networks or devices (e.g. unsupervised shared computers of libraries, bookstores or educational institutions).
- During internet banking do not resend to anyone the URL (link) appearing in the top bar of the browser with a view for the security of your data!

Application for Raiffeisen Mobile Banking service

With the Raiffeisen Mobile Banking service you can request a prompt SMS message on each and every banking transaction (e.g. debit and credit card transactions, successful and unsuccessful logins to the internet banking platform) to your mobile phone.

Deceptive e-mails, websites, viruses

Data phishing

Sent with the intention to deceive, such e-mails/SMSs seem to come from the Bank, but in fact are sent by impostors with the purpose of obtaining the customers' data and codes (internet banking or telephone banking ID, password, card PIN). The link sent in the letters/messages will lead you to a fake internet site confusingly similar to the Bank's website. With the fake website they are trying to "phish" the customer ID, password and other confidential data from the customers. Please do not respond to any such request!

How can you recognise fraudulent e-mails, SMSs and websites?

E-mails/SMSs sent with deceptive purposes often call on the customers to provide or update their data urgently, and may even formulate some threat as well (e.g. "If you don't give us your data, your account will be blocked"). The link sent in deceptive e-mails leads to a fake website, where they request the customers' data. Check the authenticity of Raiffeisen Bank's internet site!

Signs of a fake website:

- the bottom bar or the top URL bar of the browser fails to include a small padlock icon showing the existence of a secure connection
- the domain name in the URL bar is incorrect, e.g. raiffeisenhu.com
- the site requests your telephone banking identifier as well (not in each case)

Signs of an original website:

- the bottom bar or the top URL bar of the browser includes a small padlock icon showing the existence of a secure connection
- the domain name in the URL bar is correct: www.raiffeisen.hu
- the site does not request your telebanking identifier

The small padlock sign symbolising secure connection indicates that the connection is established in an encrypted channel protected by secure SSL technology. If you click on the icon, you should see the following information:

Voice phishing (vishing)

For the purpose of transaction reconciliation, our call centre staff may ask you only to provide your internet banking ID. Even in such case only executed transactions are confirmed. The Bank never asks you to give your approval with the Mobile Token and/or in SMS for the reversal of a transaction you do not acknowledge or its transfer to an omnibus account. Never disclose your card data or banking IDs to third parties, even if you are requested to do so with any kind of threat, e.g. if you fail to provide your data, your unacknowledged transaction cannot be reversed.

Whatever may put your computer at risk?

Trojans

It may occur that impostors ask you in e-mail/SMS to download by clicking on a link sent to you—even if you do not answer the letter—“some application”, in fact harmful software and viruses, to your computer, which will try to block your antivirus and firewall programs.

Trojans are installed on your computer unnoticed, and will get important information (customer IDs and passwords). They will send the obtained data to tricksters, who use these to perpetrate frauds. Most antivirus programs are able to detect and remove Trojans. Therefore it is strongly recommended to keep the security applications of your computer (antivirus program, firewall, etc.) up-to-date, and use these regularly.

Pharming

If tricksters manage to modify the settings of the customers' computers (by means of viruses), they can even redirect visitors to a fake website. Important! In the case of a real banking website, the bottom bar or the top URL bar of the browser includes a small padlock icon showing the existence of a secure connection.

Security elements of internet banking

Raiffeisen Bank has developed internet banking at the highest security level possible. At the same time it is also ensured that security requirements and the information and operations required of the customer are not to the detriment of usability.

1. Internet banking is built up dynamically—thus the security logic cannot be reverse engineered.

To use internet banking you only need an internet browser, and you do not need to install further programs or use other applications. The pages of the internet banking platform are built up by the Bank's web server dynamically, therefore it is not possible to reverse engineer the bank security logics applied.

2. The Bank's systems are equipped with multiple firewall protection.

The duty of the Bank's firewalls is to protect the Bank's systems and the data of the customers, and detect any unauthorised access. The multilayered firewall system of Raiffeisen Bank provides the highest security level.

3. When using internet banking, communication takes place in an encrypted channel.

When you access and use the Bank's internet sites, instead of normal http a https secure connection is built up between the customer's computer and the Bank's web server. The data transported in the channel secured by TLS1.2 technology are encrypted using a 256-bit-long key. The key necessary for the encryption has been authenticated for Raiffeisen Bank by NetLock Kft., a security certificate issuer acknowledged in Hungary.

4. Time limit

The security of use is further enhanced by the fact that if you do not use internet banking for a specific period (the browser window is inactive, or no active transactions are taking place), the system will automatically exit you.

5. Prevention of simultaneous logins

In the course of internet banking, it is impossible to log in simultaneously from several computers or mobile devices with the same identifier. Therefore even if as a consequence of the user's carelessness their identifier and codes are obtained by unauthorised parties, it cannot happen that in parallel with the customer someone else may also log in and access their accounts. Moreover, if the customer is in a logged in status, and during this time someone else wishes to log in from another computer in the customer's name, both parties will be immediately notified to this effect, and the system will block the execution of any further transactions, and log out the user.

6. Display of latest login time

To monitor the use of internet banking, upon each successful login you can check in the window showing the list of notices the date and time of the latest successful login.

7. Change your password periodically

You must change your password chosen for the service every 365 days on a mandatory basis, and the system will automatically request you to do so. You can of course change your password at any time.

8. Password protection

If you enter your password three times erroneously when logging in to the internet banking platform, the system will temporarily (for 24 hours) block the system, preventing any unauthorised parties from giving transaction orders in your account.

9. IP addresses are recorded

The Bank records the data of all computers connected to the internet that launch requests towards the Bank's web server, assisting the detection of any potential unauthorised access.

10. SMS notification on DirektNet login

By means of the DirektNet login SMS notification service you may get prompt notice on all successful and unsuccessful login attempts carried out with your identifier. You can request/modify/cancel the service in the DirektNet platform using the User profile /Account holder details screen.

The fees payable for the service are available in the Bank's List of Terms & Conditions from time to time in effect.

We shall send you automatic messages on the following:

- Successful logins
- Unsuccessful login attempts
- Third unsuccessful login attempt
- Cancellation of DirektNet login SMS service

11. Signature devices

Signature password: Only the user should know the signature password, and may change it at any time after login to the Bank's system.

SMS: For the approval of outgoing transactions launched in the internet banking platform, the Bank sends one-time passwords (immediately when the transaction is started) in SMS to the mobile phone number provided by the user. You can start the transaction by typing in the SMS code. The SMS code is a one-time, time-limited password.

HARDWARE TOKEN: Device generating one-time passwords using which you can sign and authenticate your online transfers.

MOBILE TOKEN: For DirektNet internet banking login and signature, besides your Direkt ID you can use a software-based Mobile Token (PIN code, fingerprint or iOS face ID function) as well instead of the Password (or Hardware Token).

If you have access to several payment accounts (as an account holder or authorised representative), you can log in with any Direkt ID belonging to these, and view all accounts you are authorised to access.

Personalised offers

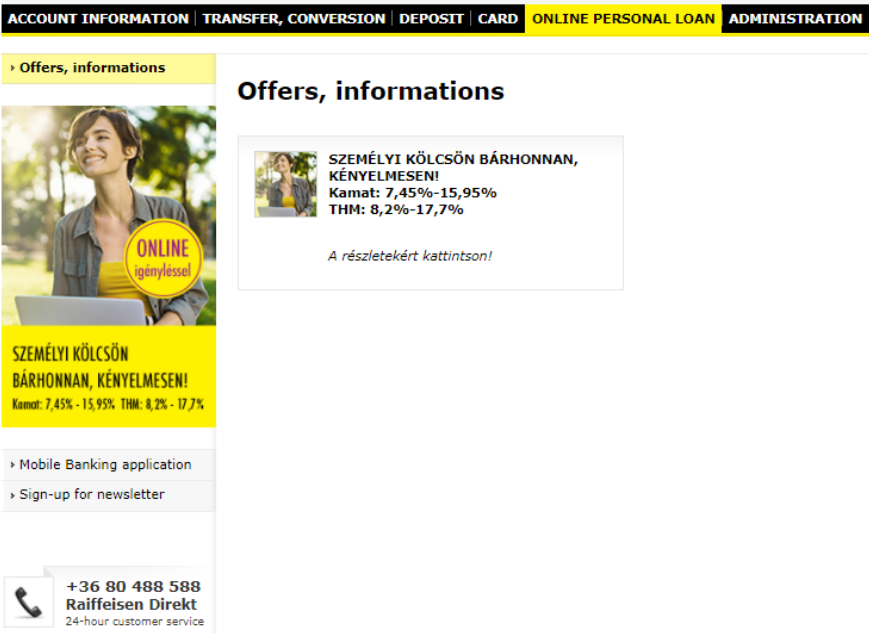

Can I order the Bank's offers through DirektNet?

Through DirektNet, Raiffeisen Bank may occasionally inform you of its personalised offers. **By clicking on the image of the advertisement appearing after login, you can read more information.** You can close the image (that will vanish by itself within a few seconds) by clicking on the yellow "x" visible in its upper right corner.

You can also find current offers at the bottom of the main screen of DirektNet ([Accounts overview](#)). By clicking on the image that appears here, you can get to the offer details page.

You can view our offers prepared for you by clicking on the option [Promotions, offers](#) of the top grey menu bar as well.

You may as well launch ordering the offered service in these pages. After entering the data, click on the **Order** button, and finalise your request by clicking on the **OK** button.

B) MYRAIFFEISEN PORTAL

A new platform of the Bank, it is designed to make it easier for Users to access the services and information relevant to them, while also providing internet banking functions. Its functions are continuously expanded, and the available functions are disclosed in the Bank's myRaiffeisen portal Announcement.

This user guide has been prepared to facilitate the use of the system.

If after reading this guide you should have further questions concerning the use of the myRaiffeisen portal, please call **our customer service line Raiffeisen Direkt** at phone number

06-80-488-588

toll-free within Hungary.

Benefits of the myRaiffeisen portal

Through the Portal, you can

- view your current bank account balances, transactions and cards, as well as your existing products and services from anywhere, anytime,
- access the Bank's digital services easily, in one single place,
- view the Bank's current offers,
- as well as view useful information content compiled for the users.

The myRaiffeisen portal is optimised for desktop and mobile browsers:

- **Google Chrome: 81.0+**
- **Mozilla Firefox: 85.0+**
- **Safari: 13.0+**
- **Microsoft Edge: 87.0+**
- **Opera: 73.0+**
- **Internet Explorer - not supported**

We also recommend you to upgrade your operating system to one of the last two major versions (in the case of Android, to any one of the versions issued during the last three years). **We do not support display from Windows XP operating systems.**

We are committed to provide myRaiffeisen portal as a web-accessible platform, in order to utilize the already available accessibility developments we recommend you to open myRaiffeisen portal in Google Chrome browser.

Internet connection is required to use the functions of the myRaiffeisen portal.

I. GETTING STARTED

1. Application and login

You do not need to file a separate application to access the myRaiffeisen portal; if you have any product and an activated Direkt ID or a Digital Channel ID for any of the Bank's Electronic Channels, the Portal will also be available to you automatically.

For more information, see Part A) **Raiffeisen DirektNet, Chapter I. Getting started, Section 2. Activation and security** of this manual.

To log in, enter your Direkt ID or Digital Channel ID in the website **my.raiffeisen.hu**.

For further steps, see Part A) **Raiffeisen DirektNet, Chapter I. Getting started, Section 3. Login to DirektNet** of this manual.

Terms of Use and Privacy Policy

After the first login, the Terms of Use and the Privacy Policy will be displayed. Upon your first time here, you need to read through the marked information documents, which you can indicate by ticking the relevant box. After ticking the box, click on the Accept button to enter the myRaiffeisen portal home page.

If you do not wish to accept the information documents, press Go to DirektNet, and you will be taken to the DirektNet home screen as usual.

Terms and Conditions and Privacy Policy

Please carefully read the documents. By accepting the documents below, their content becomes part of a framework agreement on financial services between you and the Bank.

- I understand and agree to the Terms and Conditions
- I understand and accept the Privacy Policy Guide
- I understand and The risk of granting access to the authorised representative

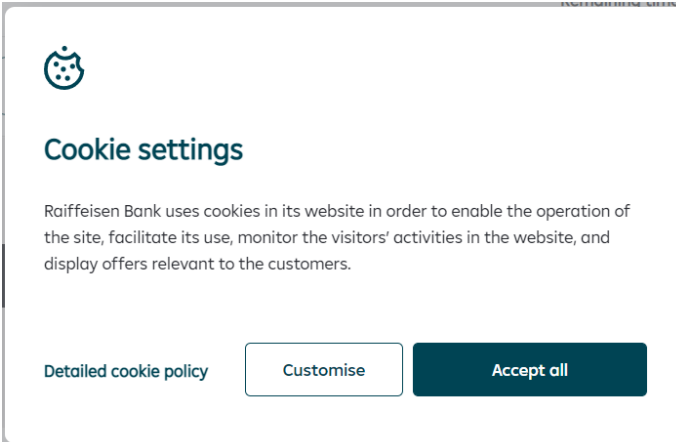

Accept

Cookie settings

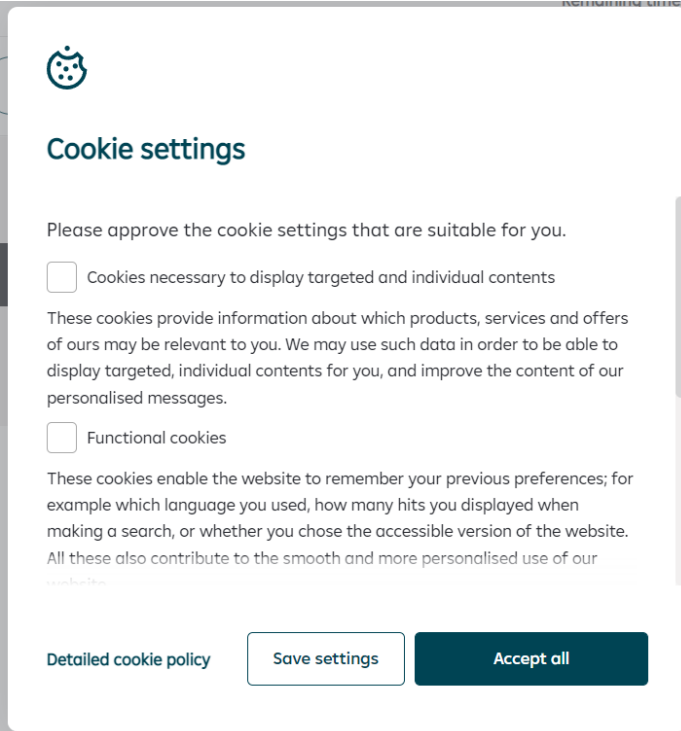

When you navigate to the Bank's websites, a little file called "cookie" will be saved to your IT or mobile device (e.g. computer, laptop, tablet, mobile phone, hereinafter the "device"), which may serve several purposes.

Some of the cookies used by the Bank are indispensable for the proper operation of the site, whereas others collect information on the use of the website in order to make the site even more convenient and useful. Some of the cookies are temporary only, and will be deleted when you close your browser, whereas there are also long-standing versions that will remain in the device for a longer period.

You can enable or customise cookies after logging in.

The screenshot shows the initial cookie settings page. At the top left is a cookie icon. Below it is the heading "Cookie settings". The main text explains that Raiffeisen Bank uses cookies for site operation, use facilitation, activity monitoring, and displaying relevant offers. At the bottom, there are three buttons: "Detailed cookie policy" (a link), "Customise" (a white button with a dark border), and "Accept all" (a dark teal button).

The screenshot shows the customization view of the cookie settings page. It starts with the same heading and introductory text. Below that, it asks the user to "Please approve the cookie settings that are suitable for you." There are two options, each with an unchecked checkbox: "Cookies necessary to display targeted and individual contents" (with a detailed explanation of targeted content) and "Functional cookies" (with a detailed explanation of remembering preferences). At the bottom, there are three buttons: "Detailed cookie policy" (a link), "Save settings" (a white button with a dark border), and "Accept all" (a dark teal button).

2. Services, access

Available features and services

You can access the following functions in the myRaiffeisen portal:

- **Authorise login** with Mobile Token, Hardware Token or Password+SMS authentication
- View **debit and credit card data**
- **Card limit modification** (for customers with independent signing rights)
- **Transaction limit modification**
- **Online Purchase**
- **Language selection** (Hungarian and English)
- View your **user profile**
- Switch between **roles**
- **Apply for personal loan for retail and premium customers** with redirection to the Online Personal Loan platform (szemelyikolcson.raiffeisen.hu) – in Hungarian
- **Apply for overdraft for retail and premium customers** with redirection to (bankszamlahitel.raiffeisen.hu) – in Hungarian
- **RaiConnect service for contracted premium customers** with redirection (raiconnect.raiffeisen.hu)
- **Access to DirektNet internet banking platform** (direktnet.raiffeisen.hu) with redirection
- **ATM and Branch locator** with redirection to website
- **Access to loyalty program for retail and premium customers** (husegprogram.raiffeisen.hu) with redirection
- **Access to VideoBank service for small business customers**
- **PIN2 code request for online card payment** (with redirection to pin2.raiffeisen.hu site)
- **Access to Raiffeisen Online Broker trading platform for customers with Internet Brokering access** (online-broker.raiffeisen.hu) with redirection
- **Chat**
- **Provision of electronic documents** to the Bank's customers via the Documents menu
- **Submission of electronic documents** to the Bank via the Documents menu
- **Customer data reconciliation – submission of renewed personal document** to the Bank online
- **Apply for certificate** to small business customers and private companies who have Annual Net Sales under HUF 398 million – in Hungarian
- **Account termination** 30-day account termination

For the actual list of functions please read the Announcement, which you can access [here](#).

Access privileges

The myRaiffeisen portal is available to Customers who meet one of the following criteria and have an **activated Digital Channel access**:

- you are a retail, premium banking or private banking account holder **with a bank account held with Raiffeisen Bank Hungary and have DirektNet access**
- you have signature authority (act as a proxy) over a retail, premium banking or private banking account held with Raiffeisen Bank Hungary, **and have DirektNet access**,
- you are a retail, premium banking or private banking account holder **with a main card issued by Raiffeisen Bank Hungary**,
- you **have an additional card issued by Raiffeisen Bank Hungary** and linked to the bank account of a retail, premium banking or private banking customer,
- as a representative authorised to operate the bank account kept at Raiffeisen Bank Hungary of a small business or private company Customer (registered on the signature card of the company), you have DirektNet and/or Raiffeisen Pay access,
- as a person not authorised to operate the bank account kept at Raiffeisen Bank Hungary of a small business or private company Customer (not registered on the signature card as an authorised representative), you are authorised to input data in respect of the Raiffeisen DirektNet service,
- as a representative authorised to operate the bank account kept at Raiffeisen Bank Hungary of a small business or private company Customer (registered on the signature card of the company), you have a business card issued by Raiffeisen Bank

3. Customer Profile selector

The meaning of Customer Profile selector

In case you have more two or more rights of access either as an account holder or as an authorised representative, you can log in with any activated Direkt ID of yours, and access all active accounts you are authorised to access.

If you have more than one Direkt IDs (for example as an account holder, or an authorised representative), when signing an order you should always enter your password used for the given access, to which your attention will be called in a red message displayed in the screen.

With the Mobile Token you can conveniently and simply authenticate your orders linked to each access of yours.

Access to and content of the Customer Profile

Where can I find my customer profiles selector?

After login to the Portal, you can open the relevant customer profile by clicking on the Customer's name in the top left corner. Then you can choose from your different accesses in the dropdown window.

Logged in as **Minta Erika** > Remaining time: 3:55 minute(s) 

 **Raiffeisen
Bank** Transactions My Products Offers, products Documents More

If you have multiple accesses, but their number does not exceed five, then click on the Customer's name, you can choose from the drop-down list which Customer you wish to act on behalf of.

Logged in as **Minta Erika** > Customer Identifier Status Remaining time: 2:49 minute(s) 

Customer	Identifier	Status	Offers, products	Documents	More
<input checked="" type="radio"/> Minta Erika Owner	Direct Identifier 53173802	active			
<input type="radio"/> Minta KFT. Trustee	Direct Identifier 81932405	active			

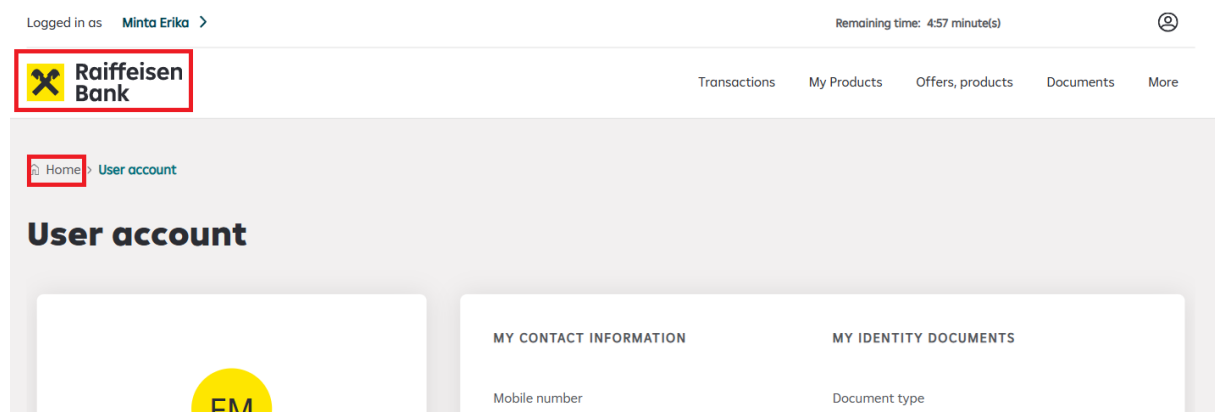

If you have more than five accesses, clicking on the Customer's name will open a full-page Customer profile selector. In this, you can view your accesses of different types - if you have them - in a separate column. Among the accesses, you can also choose on whose behalf you want to act using the search bar located at the top.

Content of the customer profile selector

- **Customer:** The Customer is the person on whose behalf you can take action. By clicking on the Customer's name, you can open the Customer Profile selector window, if you have several accesses.
If you have only one right of access, the name of the Customer is inactive, and you cannot click on it.
- **Role:** The type of right you hold over the account that appears under the Customer's name in the case of accesses available with the Direct ID.
- **Direkt ID:** The Direkt ID belonging to the given access.
- **Electra ID:** The Electra ID belonging to given access, with select it you will be redirected to the myRaiffeisen Business portal.
- **Status:** It shows the status of the given access in the case of accesses available with the Direct ID.

4. Accessing the home page

If you would like to return to the home page from any sub-page of the Portal, you can do so by clicking on the Raiffeisen Bank logo, or by clicking on the Home page where the navigation path is displayed.

The screenshot shows the Raiffeisen Bank user account page. At the top, it displays "Logged in as Minta Erika" and "Remaining time: 4:57 minute(s)". The Raiffeisen Bank logo is highlighted with a red box. Below the logo, there are navigation links: "Transactions", "My Products", "Offers, products", "Documents", and "More". The main content area is titled "User account" and features a navigation path: "Home" (highlighted with a red box) and "User account". Below the title, there are two columns of information: "MY CONTACT INFORMATION" with a "Mobile number" field, and "MY IDENTITY DOCUMENTS" with a "Document type" field. A yellow circular icon with the letters "EM" is visible in the bottom left corner of the main content area.

II. HOME

1. Header, Menu and Footer

In the Portal's Header and Menu you can find:

- the Customer Profile selector, which you can read more about in Part B) myRaiffeisen portal, Chapter I. Getting started, Section 3. Customer Profile selector
- display of the Remaining time (max. 5 minutes), which you can extend at any time during the session by clicking on the countdown timer (Attention! When the time runs out, the system will automatically exit you for your safety)
- the Profile menu, described in detail in Part B) myRaiffeisen portal, Chapter IV. Profile of this manualthe Raiffeisen Bank logo, which allows you to navigate back to the Portal home page at any time
- as well as the menu bar and the menu items
- Menu items in the menu bar that correspond to functions not yet available on the Portal will redirect users to the appropriate functions in DirektNet.

Logged in as **Minta Erika** >

Imprint

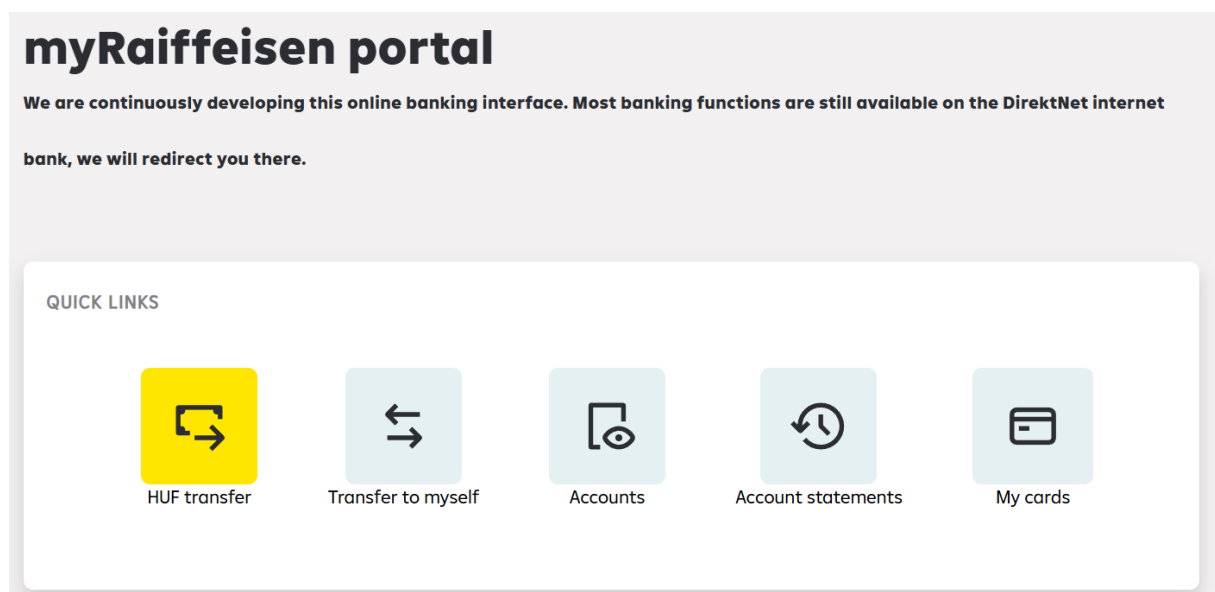

If the Bank wishes to publish an important message for Customers in connection with the Portal (for example, advance information on expected system maintenance), you can read about it in the black bar directly below the Menu.

2. Quick links

The useful features necessary for everyday banking appear in the Quick Links section. Some functions are currently not available on myRaiffeisen Portal and redirect to the appropriate functions of DirektNet.

3. Floating menu – RaiConnect

Clicking on the  icon in the bottom right-hand corner you can open the Floating menu (which you can close by clicking on the same icon again), where you can access our RaiConnect service (if you are eligible).

4. Raiffeisen VideoBank service

You can access the Raiffeisen VideoBank service by clicking on the  located in the bottom left corner (if you are eligible). Through the Raiffeisen VideoBank service, you can manage your business-related matters online via a video call initiated by you, without the need to visit a branch.

5. Services and current offers

Under the Quick links section you can access the offers and useful information displayed for you, as well as the various banking applications (e.g. Online Personal Loan, Branch Locator).

Housing loans with 0 HUF initial fees

APR: 8,51%-10,24%

Apply for Raiffeisen Housing Loan until October 31, 2022 and avoid fees related to the borrowing process.

Useful information for bank card services

6. Electronic certificates (only available in Hungarian)

By clicking on the Electronic certificates tile, you can access the certificate request service.

The conditions for Electronic certificate requests about accounts and loans for retail and Private individuals:

- The request for an electronic certificate can be submitted by the account holder.
- The fees for issuing certificates are included in the current Retail Raiffeisen Bank Account, Electronic Services Terms and Conditions List, and for private individuals in the current Terms and Conditions List for privileged private clients.
- We will inform the applicant about the completion of the certificate through a message sent to the email address provided during the request process and registered with the Bank.
- The applicant can view the electronically signed certificates on the myRaiffeisen portal under the Documents menu.

The conditions for Electronic certificate requests for small businesses and Private companies who have Annual Net Sales under HUF 398 million

- The Bank accepts the application for requesting an electronic certificate if the applicant has unrestricted authorization for all accounts.
- The fee for issuing certificates is specified in the current valid List of Terms and Conditions for Corporate Clients or in a separate Fee Schedule signed as an attachment to the Payment Account Agreement.
- The applicant will be informed about the completion of the electronically certified certificate via the email address provided to the Bank.
- The certificate can be accessed on the myRaiffeisen portal under the Documents menu.
- The electronic certificate can be downloaded by the applicant onto their computer at any time and from anywhere.

How to fill out the certificates?

1. Select the type of certificate from the list.
2. To electronically fill out the certificate, click on the "Fill out" button.
3. Enter the necessary information to issue the certificate.
4. General information for filling out:
5. Fields marked with * are required. The field will turn red if not filled out correctly.
6. Contact email address: You can choose from the email addresses registered with the Bank. You can update the email address associated with your personal account on Raiffeisen DirektNet under the Administration/Update Email Address menu. The easiest way to update the email address of your business is through the Raiffeisen VideoBank service or by visiting any Raiffeisen branch with your request for modification.

7. Click the "Submit" button to submit your certificate request.
8. If the submission is successful, a confirmation message will appear on the myRaiffeisen portal.
9. You will receive banking notifications related to the issuance of the certificate to the selected email address.
10. Download the completed, digitally signed certificate from the Documents on the myRaiffeisen portal.

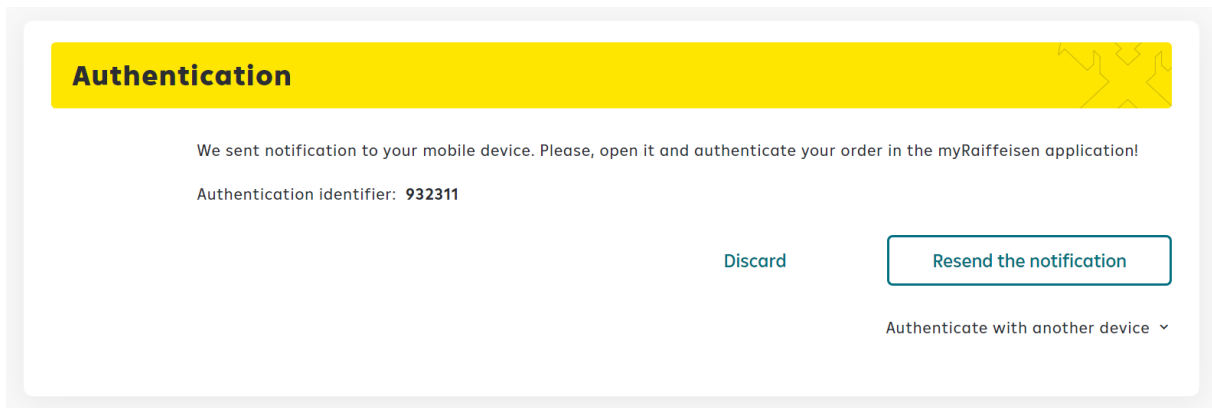

III. SIGNATURE OF ORDERS; SIGNATURE DEVICES

You can use several authentication methods to sign orders:

- Mobile Token
- Password used for login + one-time SMS password

Signing transactions and modifications initiated on myRaiffeisen portal with **Mobile Token**

Once you have navigated to the Overview page, where you can check the details of the transaction modification, you can start the transaction authentication by clicking the Sign button.

If **push notifications are enabled** in the myRaiffeisen mobile application, the process is as follows:

1. You receive a push notification on the approval of login to your mobile device.
2. Pressing the push notification, you can view the details of the Transaction. If the data are correct, approve (authenticate) the login with the **Sign** button.
3. You have 1 minute to approve orders initiated in myRaiffeisen portal. The time available for the approval of transactions is indicated by the counter at the end of the line. For larger transactions, the bank may require an additional SMS signature for your protection.
4. After successful approval, within a few seconds the home page of myRaiffeisen portal appears.

In case push notifications are not allowed for the application, you should proceed as follows:

1. Log in to the application by providing your Mobile Token PIN code, or by means of your fingerprint / facial recognition in a suitable iOS device
2. Press the icon in the bottom of the screen, then hit the Authorise items message bar appearing on the top of the screen.
3. In the list that appears you can see the transactions initiated in the myRaiffeisen app, in DirektNet internet banking and in myRaiffeisen portal that are waiting to be signed. You have 1 minute to approve the transactions initiated in myRaiffeisen portal, which is indicated by the counter at the end of the line.
4. Press the line of the transaction launched in myRaiffeisen portal.
5. Sign (authenticate) the order with the Sign button. For larger transactions, the bank may require an additional SMS signature for your protection.
6. After signature, you get a confirmation in the app on the successful approval of the transaction, and within a few seconds the status of the entered orders will be updated in the myRaiffeisen portal platform as well.

In case of successful transactions, a confirmation screen will appear both on the myRaiffeisen portal and the myRaiffeisen mobile application.

You can find information about unsuccessful transactions on the confirmation screen.

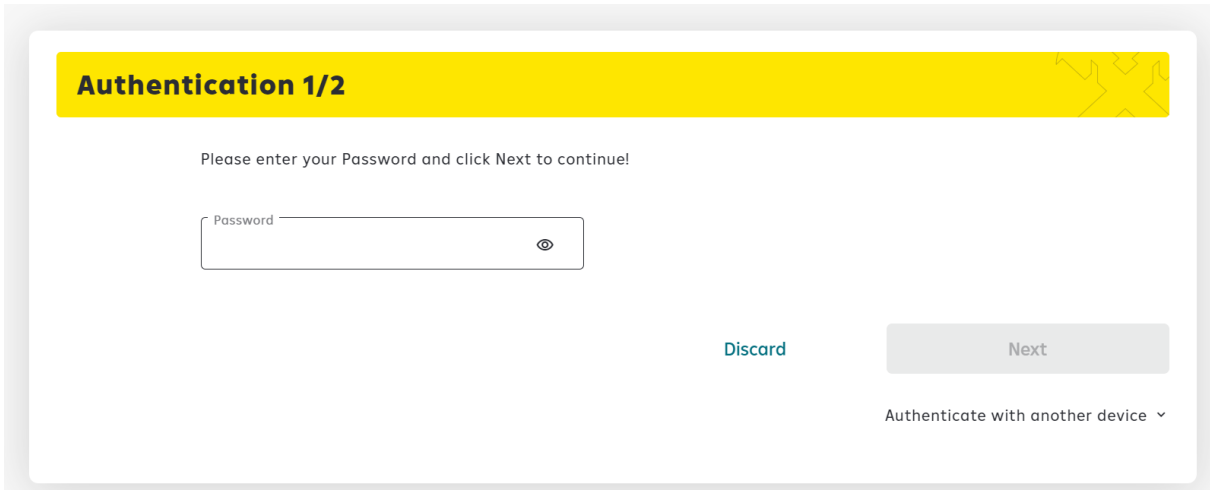

Signing transactions and modifications initiated on the myRaiffeisen portal with **SMS + Password**

If you do not want or are unable to use Mobile Token for signing, you can select the **SMS Code** signing method by clicking on the "**Authenticate with another device**" button.

The authentication consists of two steps:

1. Providing the password associated with your Direct ID.

Authentication 1/2

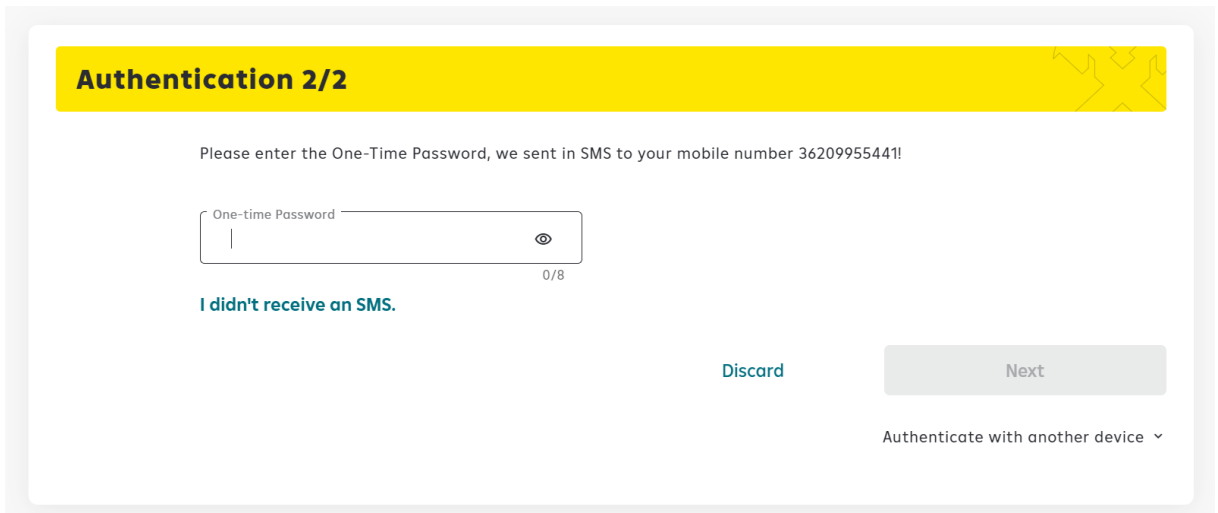

Please enter your Password and click Next to continue!

IV. PROFILE

The Profile menu is indicated by the  icon in the top right corner of the screen.

1. User data

This is where the data of the logged in user are displayed. If your details have changed, you can initiate an update of your data by clicking on the "Data modification" button.

Data modification (only available in Hungarian)

In accordance with the provisions of Act LIII of 2017 on the Prevention and Combating of Money Laundering and Terrorist Financing (the "Money Laundering Act")*, the Bank is required to have up-to-date customer data, including copies of valid identity documents.

* Art. 6 (1) g) of the Money Laundering Act

If your identity document previously registered with the Bank has expired and you have not yet presented your new document (identity card / passport / driving licence card), please complete the data reconciliation, which you can do quickly and easily on **this** platform.

You can access data modification in two ways:

By clicking the "Adatmódosítás" button at the bottom of the "User account" page found under the profile icon.

By clicking the "Adatmódosítás" button at the bottom of the "More/Data modification" menu.

In the myRaiffeisen portal menu, select the "More / Data Modification" option, then scroll to the bottom of the page and click on the "Data Modification" button.

To upload documents, select the "Tovább" button in the "Okmánymódosítás" row.

Only Hungarian citizens can initiate the modification of their personal documents issued by Hungarian authorities.

Please click on the "Upload" button and attach a copy of your new, valid document as follows:

- Scan/take a photo of both sides of the identity document and make sure that the copy is of good quality: the information as well as the photograph must be clearly visible and in colour version for easy identification.
- Attach a copy of your identity document(s) in pdf or a common image format (e.g.: jpeg, tiff). The size of each attachment must not exceed 100 MB.
- Please do not attach any documents other than your identity document, unless you have had an old type of identity document previously. In this case, please also copy the address side of your address card.

If we find an error during the data processing or if the new document cannot be recorded due to additional data gaps (e.g. change of name, tax residence to be clarified), we will contact you at the following e-mail address.

You can change your e-mail address by clicking the "Tovább" button in the "E-mail cím módosítás" row.

To change your notification address, select the "Tovább" button in the "Értesítési cím módosítás" row.

The modification is expected to occur within 2 business days and you will be informed of the result via e-mail.

If you wish to report changes in your small business' data, the simplest way is through the Raiffeisen VideoBank service, or you can visit any Raiffeisen bank branch with your modification request.

For our corporate clients, data modifications can only be made at a bank branch.

2. Documents

Via the Documents menu item, the user can access the locked mailbox through which the Bank can share electronic documents related to the Customer's products and services with the user (e.g. account statements, contracts). The documents are displayed arranged by products. Users can download documents one by one or in batches from the platform. If the Bank expects the user to submit documents electronically, a notification bar will appear on the platform.

3. Switch languages

Besides Hungarian, the Portal is available in English as well; please note, however, that some contents are available in Hungarian only. In the case of any such content, it is indicated on the English page that the details are only available in Hungarian.

4. Exit

You can leave the Portal by pressing the Logout button; in such case you will exit the Portal as well as any other application you are logged in to with the relevant Direkt ID.

The system will automatically exit you after 5 minutes of inactivity.

V. ACCOUNTS

1. Transaction history

This function currently redirects to DirektNet. You can read more informations [here](#). is most convenient for you.

2. Accounts overview

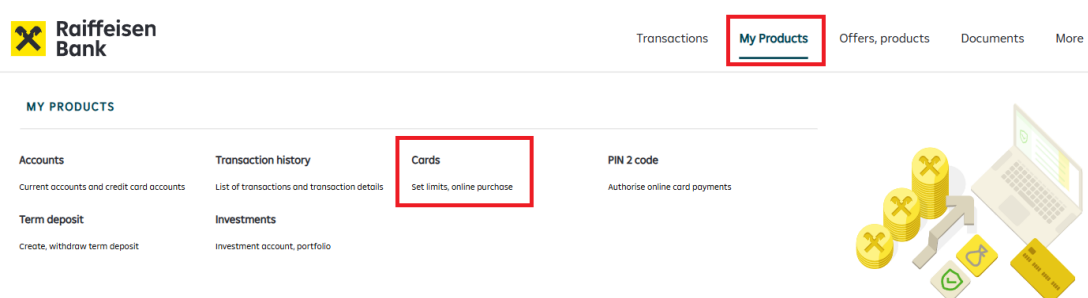

This function currently redirects to DirektNet. You can read more informations [here](#).

VI. CARDS

1. My Cards

In the Portal, you can view the bank cards associated with your accounts on the **My Cards** page.

You can access the **My Cards** page from the menu My Products/Cards in the Portal header:

On the **My Cards** page, cards are displayed by account.

Content of the **My Cards** page:

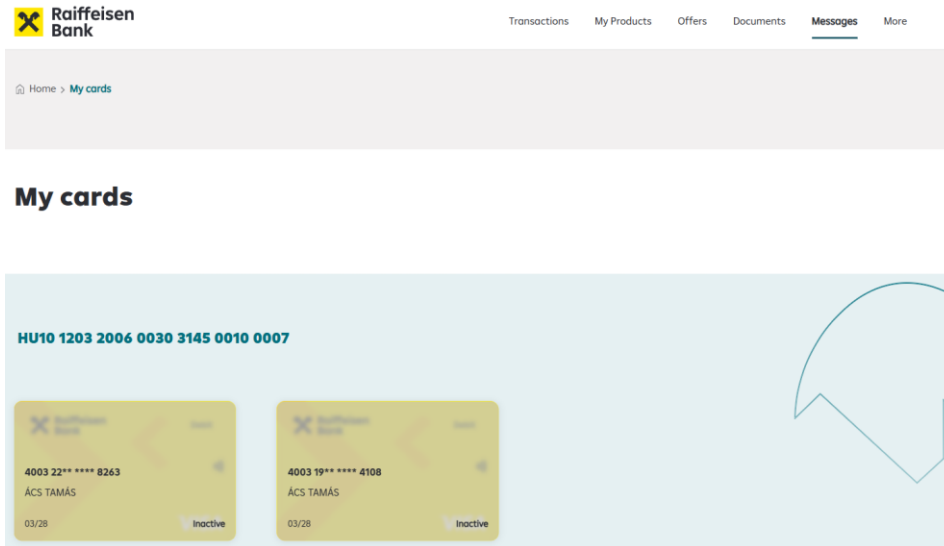

- IBAN account number(s)
- Card, cards

Data on cards:

- Card number, masked (hidden) from character 7 to character 12.
- Cardholder's name
- Expiry of card (month/year)
- Card status

Card statuses:

- Active
- Inactive – greyed out
- Suspended – greyed out
- Blocked – greyed out

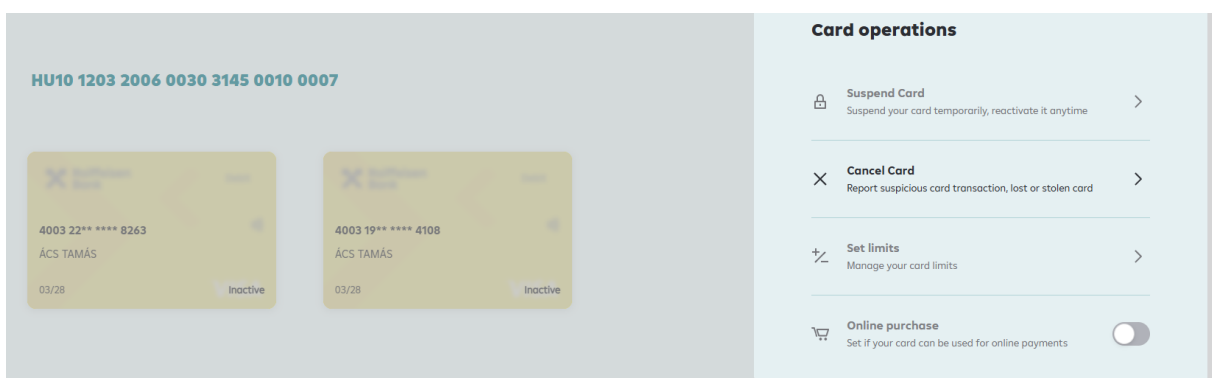

Click on the card, and the **Card Details** window will appear on the right side of the screen, with the following information:

- Card status
- Account number belonging to the card
- Image of the card, with the data displayed on the card
- Date of expiry
- Cash withdrawal limits

Under **Card Details**, you can find the **Card Operations**:

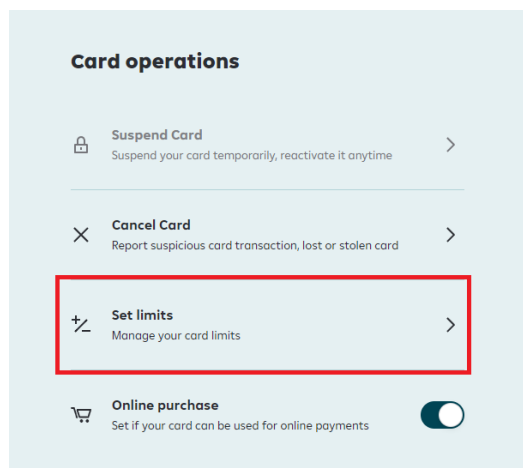

- Suspend Card
- Cancel card
- Set limits
- Online purchase

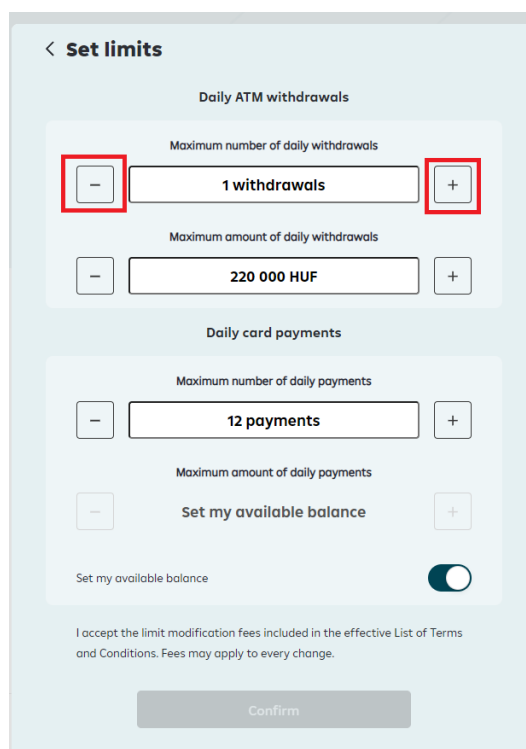

Under Card Operations, we have marked the active functions in black.

2. Set limits

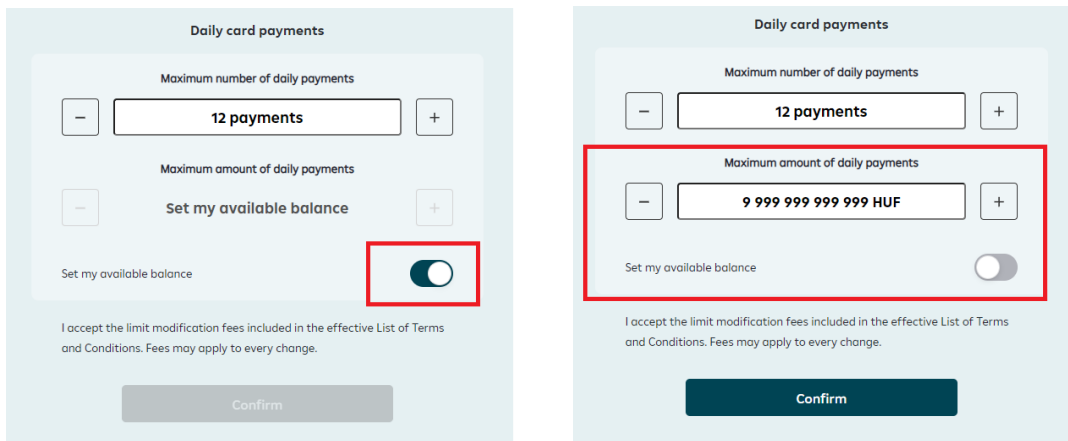

By clicking on the **"Set limits"** function among the **Card Operations**, you have the option to adjust the **Daily ATM Withdrawal Limits** and the **Daily card payment limits**.

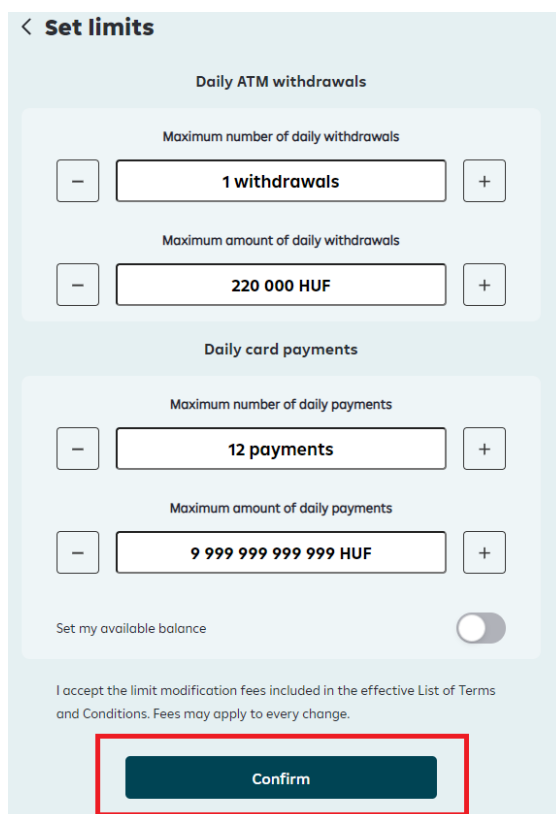

The **+** and **-** buttons on either side are used to modify the limits.

For **Daily card payment limits**, you can manually adjust the **Maximum amount of daily payments** by disabling the **"Set my available balance"** switch option.

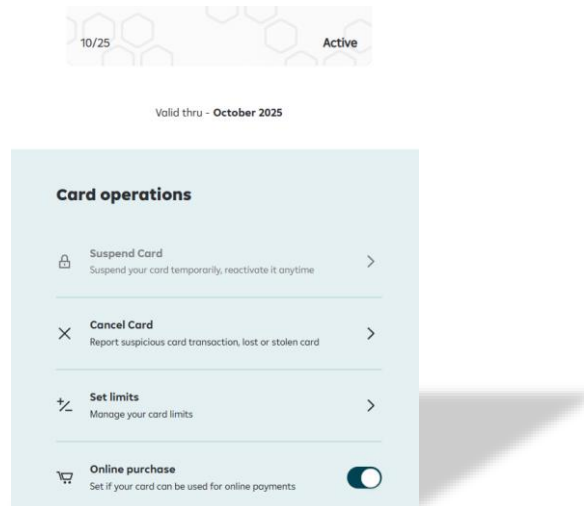

After completing the desired limit modification, click on the **"Confirm"** button

As the next step, **sign** the modification. You can find more information about the signature in [chapter III](#).

3. Online Purchase

In the Card operations section you can enable or disable online purchases with your card by toggling the switch.

A brief notification will appear, explaining the consequences of the change, whether you are enabling or disabling the feature.

To approve the desired modification, click the Accept button.

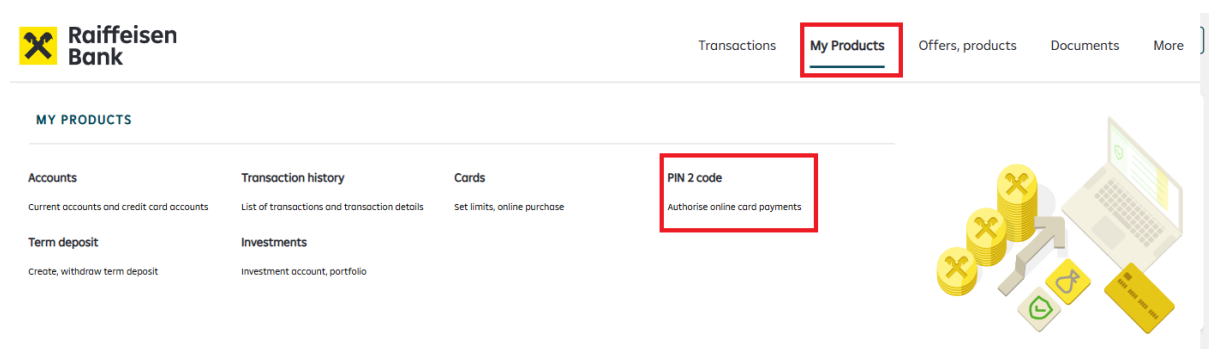

Next, sign the modification.

You can find more information about the signing methods in **Chapter III**.

4. Setting the PIN2 code

You can read more about the PIN2 code here: **Card purchases over the internet with strong customer authentication**

You can access the PIN2 application from the menu in the Portal header, via My Products/PIN2 code:

VII. TRANSFER, CONVERSION

1. HUF transfer

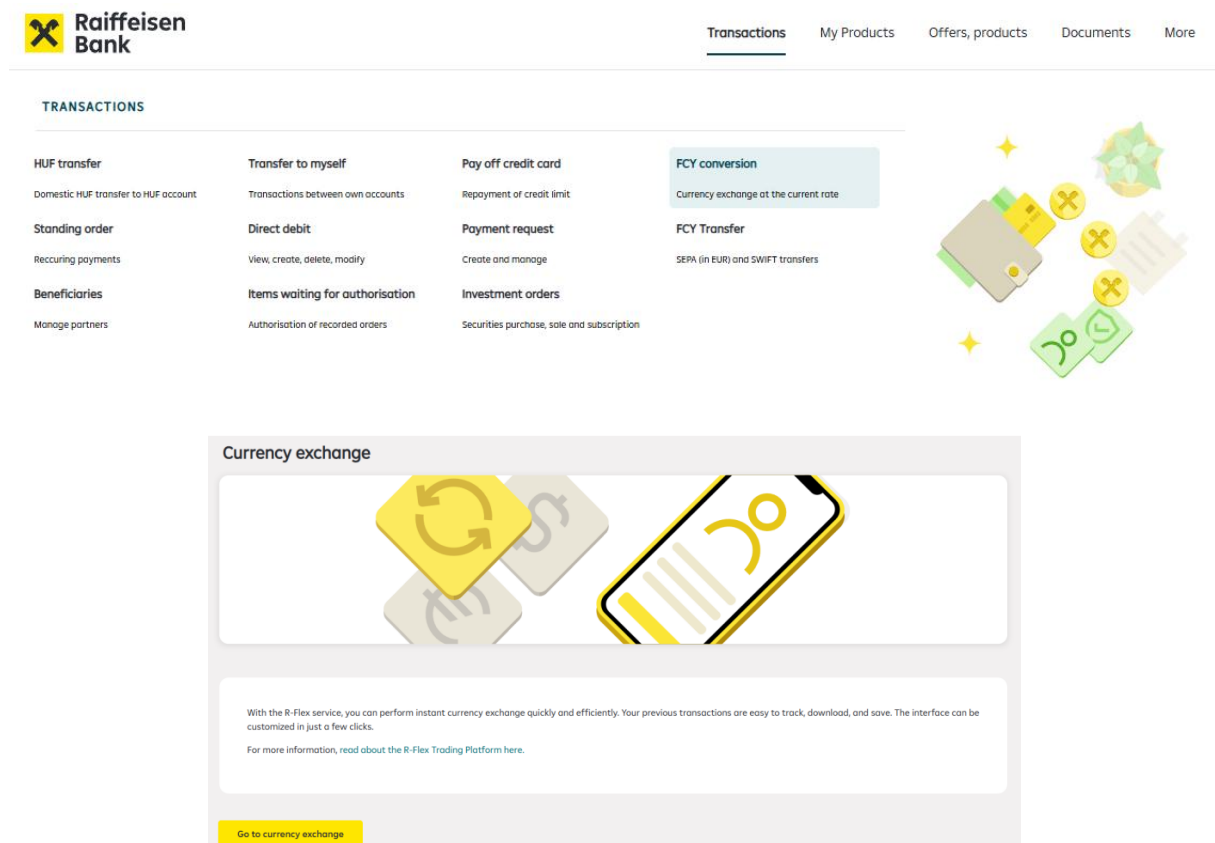

This function currently redirects to DirektNet. You can read more informations [here](#).

2. Signable transactions

This function currently redirects to DirektNet. You can read more informations [here](#).

3. Currency conversion

Our corporate clients can reach R-Flex conversion modul by clicking on „Transactions/FCY conversion“.

The screenshot shows the Raiffeisen Bank website interface. At the top left is the Raiffeisen Bank logo. To the right are navigation links: Transactions (underlined), My Products, Offers, products, Documents, and More. Below this is a 'TRANSACTIONS' section with a grid of menu items:

HUF transfer Domestic HUF transfer to HUF account	Transfer to myself Transactions between own accounts	Pay off credit card Repayment of credit limit	FCY conversion Currency exchange at the current rate
Standing order Recurring payments	Direct debit View, create, delete, modify	Payment request Create and manage	FCY Transfer SEPA (in EUR) and SWIFT transfers
Beneficiaries Manage partners	Items waiting for authorisation Authorisation of recorded orders	Investment orders Securities purchase, sale and subscription	

To the right of the menu is a decorative graphic with a smartphone, currency symbols, and a recycling symbol. Below the menu is a 'Currency exchange' section with a graphic of a smartphone and currency symbols. Below the graphic is a text box:

With the R-Flex service, you can perform instant currency exchange quickly and efficiently. Your previous transactions are easy to track, download, and save. The interface can be customized in just a few clicks.
For more information, [read about the R-Flex Trading Platform here](#).

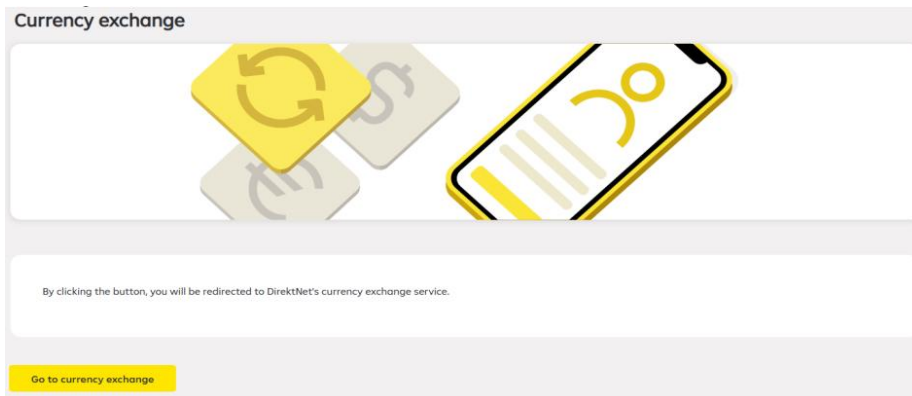

At the bottom of the section is a yellow button labeled 'Go to currency exchange'.

After selecting the menu item, the user is logged in to R-Flex with automatic redirection and authentication.

The first time, the redirection may take longer (a few seconds). Please do not refresh the page, wait until the next screen appears.

myRaiffeisen portal redirects our private individual customers to the DirektNet's currency exchange service.

VIII. SETTINGS

1. Change password

This function currently redirects to DirektNet. You can read more informations [here](#).

2. Cash withdrawal declaration

This function currently redirects to DirektNet. You can read more informations [here](#).

3. Marketing consent

This function currently redirects to DirektNet. You can read more informations [here](#).

4. Transaction limits

The Bank sets **basic limits for all** users regarding certain HUF and foreign currency transactions initiated through online channels (internet banking and mobile application). These limits can be checked and modified free of charge on the myRaiffeisen Portal under the More > Limits > Transaction limits menu.

Users can set the maximum amount that can be specified per transfer on online channels (Maximum amount per transaction) and the total number of transactions that can be recorded on a given day (0-24) on online channels (Daily maximum number of transactions).

For minor account holders, the limit modification feature is not available on online platforms until they reach the age of 18. Limits applicable to minor clients can only be modified by the legal representative or the minor together with the legal representative at a bank branch or through the telephone customer service.

In the case of joint corporate signatories, the set limits will be examined separately.

The maximum amount limit per transaction applies to both HUF and foreign currency transfers. When monitoring limits, the amount of the foreign currency transfer will be automatically converted to HUF. **During limit monitoring, the lowest limit applicable to the user will be considered among all limits, which may include daily limit, per transfer limit, signature authority-related limit, and limit associated with the signing device.**
