In case of **Treasuries**: par value; in case of **equities**: quarterly closing price quoted by BSE; in case of **investment notes**: quarterly closing price is regarded as the basis of calculation. In case of customer account balance and securities denominated in foreign currencies: **foreign currency** prices are converted to HUF on the quarterly closing official exchange rate of the central bank of Hungary.

<sup>2</sup> Customers holding securities issued by Gardénia, Worldcom INC or Biomimix INC can authorize the bank to block their account by signing an agreement. In this case no orders can be given, no securities related services will be provided and no account management fee will be charged.

<sup>3</sup> Indexation of charges and fees: The Bank links the calculation of the charges and fees indicated in the present List of Conditions to the average consumer price-index yearly announced by the Hungarian Central Statistical Office regarding the preceding calendar year. The amount or rate of such charges and fees shall be indexed each year from the 1st day of April automatically to the average consumer price-index applicable for the preceding calendar year. The indexed charges and fees shall be published each year in the present List of Conditions on or before the 1st day of April. Charges and fees shall be rounded off to the nearest whole HUF, or if determined in EUR to the nearest two decimal points, according to the general rules of rounding off. Please note that these fees may exceed the yield/value of the securities recorded on the account.

The Bank hereby restricts the possibility of opening segregated KELER sub-account in respect of Customers having specified investment services/products (also the parallel operation of already opened KELER sub-accounts), since the costs of the joint product usage may exceed the benefits of the services. The currently restricted investment service is Raiffeisen Regular Investment services.

In case of cash withdrawal from the securities account the amount of the transaction reduced with the fee of withdrawal will be paid after rounding in accordance with instructions regulated in the 2. § of the act 2008/III.

#### **Matching principles:**

In the case of sell orders concerning financial instruments, the Bank shall use the FIFO method for the settlement of the transaction, unless the customer opts for the manual matching method. Manual matching may be used in respect of the following deal types: stock exchange sell orders for Hungarian and foreign equities, bond sell orders, redemption orders for investment certificates, blockage of securities upon the customer's order and the release of blockages, in-house securities transfers between the customer's own accounts.

<sup>4</sup> Customer starting from the date of 1 January 2016 will be able to entitle the Bank to open a segregated sub-account at KELER for his/her/its domestic issued securities.

<sup>5</sup> The customer has the right to initiate unilateral blocking/release on its segregated KELER sub-account. In case of beneficiary blocking the customer shall indicate the beneficiary client - having a securities sub-account at KELER - who is entitled to release the blocked securities.

- Ongoing costs (e.g. securities account keeping fee, fund management fee, investor protection contribution)

- Costs of the financial instrument: costs incurred at the issuer of the product
- Inducements: fees and commissions paid by third parties to the Bank

The factors influencing the measure of the costs shown may include among others: changes in the price of the financial instrument, amendment of the terms and conditions of investment services, changes in the costs and fees incurred at the issuer of the financial instrument, etc.
