

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Defiance Drone UCITS ETF (the Fund) – Accumulating ETF Share Class

ISIN: IE0003XW12I8

A sub-fund of HANetf II ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The investment objective of the Fund is to track the price and the performance, before fees and expenses, the VettaFi Defiance Drone UCITS Index (NTR) (the Index). The index that is designed to measure the performance of global companies engaged in the development, production, or operation of drones and unmanned aerial vehicle (UAV) technologies, including hardware, software, and or enabling technologies of drones and UAV systems.

The selection of the Index components is fully rule-based. Global companies eligible for inclusion in the Index universe must meet the following requirements:

- Constituents must derive more than 20% of their revenues from drones and/or UAVs or enabling technologies; and
- Constituents must be a defence company with a division/program designated for research and development (R&D) of drones and/or UAVs;
- Meet the minimum market capitalisation and liquidity requirements

The Index implements the following weighting scheme that separately weights pureplay and diversified companies whereby:

- Pureplay: A company that derives at least 50% of its revenue from drones and/or UAVs manufacturing or enabling technologies;
- Diversified: A company that derives at least 20% of its revenue from drones and/or UAVs manufacturing or enabling technologies or a defence company with a division/program designated for R&D of drones and/or UAVs.

The Index is rebalanced quarterly

Replication: The Fund will employ a "passive management" (or indexing) investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the securities in proportion to the weightings comprising the Index.

Dealing: Shares of the Fund (**Shares**) are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

Distribution policy: Income received by the Fund's investments will not be distributed in respect of the shares of this class. Instead, it will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

Currency: The base currency of the Fund is US Dollar. For full investment objectives and policy details, please refer to the supplement to the prospectus for the Fund (the "**Supplement**").

Risk and Reward Profile

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The categorisation above (7) is due to the nature of the Fund's investments and risk associated with those investments, including:

- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.

- **Drone and UAV Companies Risk:** Drone and UAV companies are closely tied to the economic fortunes of such companies' research, design, manufacture, operation, or enabling technologies of drones and other unmanned aerial systems. The market for drone and UAV-related products and services is nascent, highly competitive, and characterized by rapid technological change, evolving regulatory frameworks, and heightened geopolitical sensitivities. Many drone and UAV companies are smaller, less seasoned issuers that may be more vulnerable than larger, diversified companies to fluctuations in demand, supply-chain disruptions, product obsolescence, patent or trade-secret litigation, and may have limited access to capital. Additionally, because commercial and military adoption of UAV technologies remains subject to intensive governmental oversight (including aviation safety standards, export controls, privacy protections, cybersecurity mandates, and national security reviews), adverse regulatory actions or delays in obtaining permits or certifications could materially impair an issuer's prospects.

Risks not covered by the indicator, but which are materially relevant to the Fund include:

- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.
- **Tracking error risk:** The Fund's performance may not exactly track the Index. This can result from market fluctuations,

changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0%*
Exit charge	0%*

Charges taken from the Fund over a year

Ongoing charges	0.69%**
-----------------	---------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

* Authorised participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. The Fund is currently not exercising its entitlement to apply entry and exit charges.

Since the Fund is an ETF, secondary market investors will not typically be able to deal directly with HANetf II ICAV. Investors buying Shares on exchange will do so at market prices which will reflect broker fees and/or transactions charges and bid-ask spreads as well as underlying company prices at the time of trading on the secondary market.

* Authorised participants dealing directly with the Fund will pay related transaction costs.

* For Investors dealing directly with the Fund, switching between sub-funds may incur a maximum switching charge of 3%.

** The ongoing charges are paid to the Manager which is responsible for discharging from its fee the cost of operating the Fund. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another investment fund.

Please see "General Charges and Expenses" and "Management Charges and Expenses" sections of the Prospectus and "Charges and Expenses" and "Key Information for Share Dealing" sections of the Supplement for further information about charges.

Past Performance

- There is insufficient data to provide a useful indication of past performance to investors

Practical Information

Investment Manager: Vident Advisory, LLC

Depository: U.S. Bank Europe DAC trading as U.S. Bank Depository Services Limited

Administrator: U.S. Bank Global Fund Services (Ireland) Limited.

Further information: Copies of the Prospectus documentation and the latest financial statements are available free of charge from the Administrator.
