Effective as from February 2nd 2026 until withdrawal

The amendments are marked by italicized text in the list of terms and conditions.

Announcement: Changes announced from February 2nd, 2026:

The following section in the current conditions list will be added:

- call for Self-employed persons and Primary producers (farmers)

***Indexation:** Calculation of the fees marked with a starisk (*) in this List of Terms & Conditions is tied to the average consumer price index published annually by the Hungarian Central Statistical Office in respect of the preceding calendar year. The amount or measure of the fee shall automatically change as from 1st April of each year in accordance with the average consumer price index governing for the preceding calendar year (i.e. it shall be indexed). Fee changes are disclosed by the Bank by the date of 1st April each year at the latest in this List of Terms & Conditions. When calculating the change of a fee amount, the Bank uses integer HUF amounts, and in the case of fee items determined in EUR, amounts rounded to two decimals, according to the general rules of rounding. The Bank reserves the right not to enforce the indexation of fees in respect of certain customer groups or service types in any year, or even in several successive years.

*We inform you that **Self-employed persons and Primary producers** (farmers) may only give orders – even if having LEI code – to purchase investment products falling within the scope of interest income subject to tax under Section 65 of the Personal Income Tax(PIT) Act (Act CXVII of 1995 – on personal income tax) and exempted under Section 65 (3), and the Bank can only accept the transfer of investment products falling within this scope.*

This scope typically includes

- (1) transferable collective securities issued as part of a series and offered by an investment fund not listed on a stock exchange or regulated market (investment units),*
- (2) publicly issued and traded bonds (government securities and other debt securities not subject to acquisition limit or restrictions) – it also applies to listed instruments, if the specific transaction is not concluded by the bank for the benefit of the client on a stock exchange.*

¹ Based on the quarterly average balance of securities. Calculated in the case of government securities at face value, in the case of equities traded on domestic and foreign exchanges, and other securities introduced to exchange trading, at the last known stock exchange closing price at the end of the quarter, and in the case of investment funds, at the last published net asset value available at the end of the quarter. In the case of any other securities (not traded on regulated markets), or where the market price is unknown, or cannot be determined, the face value of the given securities shall constitute the basis for the fee calculation. If the price of an investment is denominated in a foreign currency, or in the case of a foreign currency account balance, the fees will be determined on the basis of the quarter-end official foreign exchange rate of the National Bank of Hungary.

As of 1st January 2022: Based on the quarterly average balance of securities. Calculated in the case of government securities at market price at the end of the quarter, in the case of equities traded on domestic and foreign exchanges, and other securities introduced to exchange trading, at the last known stock exchange closing price at the end of the quarter, and in the case of investment funds, at the last published net asset value available at the end of the quarter. In the case of any other securities (not traded on regulated markets), or where the market price is unknown, or cannot be determined, the face value of the given securities shall constitute the basis for the fee calculation. If the price of an investment is denominated in a foreign currency, or in the case of a foreign currency account balance, the fees will be determined on the basis of the quarter-end official foreign exchange rate of the National Bank of Hungary.

² As of 1 January 2016, Customer shall be entitled to open a segregated sub-account at KELER to register domestic issued securities.

³ Customer may initiate unilateral blocking/release on its segregated KELER sub-account. In case of beneficiary blocking may be initiated by the Bank by specifying the Customer having a securities sub-account at KELER - who is entitled to release the blocking.

⁴ In case of joint blocking/release the Customer and the Bank shall jointly submit a request for release /blocking.

List of Terms and Conditions for Corporate Clients

Release of joint blocking before expiry at KELER	HUF 20,000/transaction
KELER individual statement	HUF 3,000/page
KELER blocking statement of unilateral or beneficiary blocking	HUF 3,000/transaction

**In case of segregated KELER sub-account all type of purchase/sale orders have an additional transfer cost (cost of the transfer between the Customer's segregated KELER sub-account and the KELER omnibus account). Please note that these fees may exceed the yield/value of the securities recorded on the account.

In case of cash withdrawal from the securities account the amount of the transaction reduced with the fee of withdrawal will be paid after rounding in accordance with instructions regulated in the 2. § of the act 2008/III.

Matching principles:

In the case of sell orders concerning financial instruments, the Bank shall use the FIFO method for the settlement of the transaction, unless the customer opts for the manual matching method. Manual matching may be used in respect of the following deal types: stock exchange sell orders for Hungarian and foreign equities, bond sell orders, redemption orders for investment certificates, blockage of securities upon the customer's order and the release of blockages, in-house securities transfers between the customer's own accounts.

*** As of 15.07.2025, HUF or foreign currency transfer or intra-bank transfer orders below HUF 25 million will not be accepted through Raiffeisen Direkt (telephone customer service).

¹¹ In the European Union, the rules defined in the Markets in Financial Instruments Directive – MiFID – entered into force on 1st November 2007. On 19th November, the Hungarian Parliament accepted the introduction of this regulation for Hungary by accepting the law CXXXVIII./2007 about the investment firms and commodity exchange service providers and about the rules of their activities, coming into force on 1st December 2007. Its provisions had to be applied from 1st January 2008. MiFID's main objectives: the protection of investors, the strengthening of competition in the financial services market and the enhancement of the transparency of the functioning of the markets. Almost the entire range of financial instruments and investment services are subject to MiFID.

14. Other commissions, fees and charges

From December 16th, 2016 the Bank also has the right to collect from the Client the commissions, fees and charges connected to the investment services used by the Client that are included in the statutorily prescribed documents (in effect on the value date of the order given by the Client) of the instrument constituting the subject-matter of the investment service as items to be charged on a mandatory basis by the Bank as a distributor.

The Bank provides further detailed information on the costs related to the investment services and products using ex-ante sample cost calculation set out in **Annex 1**.
